

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans  
And Domestic Animals**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**Environmental Hazards**

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

**Physical and Chemical Hazards**

**STRONG OXIDIZING AGENT:** Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseat container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

# LESLIE'S CHLOR BRITE II

**Fast Dissolving Pool  
Chlorine Concentrate**

Active Ingredient:  
Sodium Dichloro-s-triazinetrione ..... 99.5%  
(Available chlorine — 63%)  
Inert Ingredients: ..... 0.5%

**NET WT. 8 lbs.**

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**PRACTICAL TREATMENT: (FIRST AID):** If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**INSTRUCTIONS:** When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 2.0 ppm available chlorine. To accomplish this, add 2 oz. Leslie's Chlor Brite II per 1,000 gallons of pool water. It is necessary to condition pool water with Leslie's Conditioner according to directions on box. Maintain conditioner level between 25 to 50 ppm for optimal results.

Leslie's Chlor Brite II should be added every other day or as needed, at the rate of 2 ozs. per 10,000 gallons of pool water to maintain a chlorine residual of all times of 1.0 ppm -- 1.5 ppm as determined by a suitable test kit. The pH should be maintained between 7.2 and 7.6.

Keep in mind that a slight flexibility must be maintained in the event of heavy accumulations of dust and dirt caused by storms or super heavy bathing loads. These require additional dosages to maintain the chlorine residual between 1.0 ppm and 2.0 ppm, as determined by a chlorine test kit.

Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose of in approved landfill area, or bury in a safe place.

**STORAGE AND DISPOSAL**

Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.
