Phoenix, AZ 85040

Subject: Leslie's Chlor Brite II  
EPA Registration No. 11411-1  
Application Date: December 11, 2002  
EPA Received Date: December 19, 2002

Dear Mr. Jennings,

The following amendments, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, are acceptable with the conditions listed below.

**Proposed Amendments**

- new format and graphics
- new marketing statements
- revised Environmental Hazard statement consistent with PR Notice 95-1
- updated First Aid statement consistent with PR Notice 2001-1
- revised Physical or Chemical Hazard Statement
- minor revisions to Directions for Use
- revised Storage and Disposal Statement
- addition of quality and satisfaction statement
- addition of bar code
- other minor revisions

**Conditions**

Revise the Label as Follows:

1. Remove the claim "Kills Algae." If you would like to use that claim you must revise the Directions for Use statement to include instructions for killing algae.

2. The front panel of the label includes the phrase "STEP 2." It is not clear from the label what this means. Please remove this phrase from the label.

**General Comments**

A stamped copy of the labeling accepted with conditions is enclosed. Submit three(3) copies of your final printed label before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact me at 703-308-6345.

Sincerely,

Robert S. Brennis  
Product Manager 32  
Regulatory Management Branch II  
Antimicrobials Division (7510C)

<b>FIRST AID</b>	
<b>If in eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If swallowed</b>	<ul style="list-style-type: none"> <li>• Call poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>If inhaled</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
<b>If on skin or clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
<b>NOTE TO PHYSICIAN</b>	
Probable mucosal damage may contraindicate the use of gastric lavage.	

## PRECAUTIONARY STATEMENTS

### HAZARD TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

*{Environmental Hazard statement for end-use products in containers of less than 50 pounds (solid, dry weight)}*

**ENVIRONMENTAL HAZARD:** This pesticide is toxic to fish and aquatic organisms.

*{Environmental Hazard statement for end-use products in containers equal to or greater than 50 pounds (solid, dry weight)}*

**ENVIRONMENTAL HAZARD:** This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

### PHYSICAL OR CHEMICAL HAZARD

Strong oxidizing agent. Do not mix with other chemicals. **Never add water to product.** Always add product to large quantities of water. Use only clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire or explosion. Avoid contact with flaming or burning material, such as a lighted cigarette. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area and flood with large amounts of water.

5/5

{Back Panel}

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Read all precautionary statements before use**

**START-UP (FRESHLY FILLED):** When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a Free Available Chlorine (FAC) level of 1.0-3.0 ppm. To accomplish this, add 1 ounce of Leslie's Chlor Brite II per 1,000 gallons of pool water. It may be necessary to stabilize the pool water with Leslie's Conditioner according to the label directions.

**ROUTINE USE:** Leslie's Chlor Brite II should be added every other day or as needed at the rate of 2 ounces per 10,000 gallons of pool water to maintain a Free Available Chlorine (FAC) level of 1.0-3.0 ppm at all times as determined by a reliable test kit. The pH should be maintained between 7.2-7.8 (ideal pH is 7.4-7.6). Keep in mind that weather conditions, water temperature, bather usage and other factors can affect the water's chlorine demand. Additional dosages of Leslie's Chlor Brite II may be required to maintain the FAC level between 1.0-3.0 ppm as determined by a reliable test kit. Re-entry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine due to risk of body injury.

**STORAGE AND DISPOSAL:**

**STORAGE:** Do not contaminate water, food, or feed by storage or disposal. Keep product dry in its original, tightly closed container when not in use. Store container in a cool, dry, well ventilated area away from heat or open flame. Storage area should be locked and inaccessible to children. **PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** If empty: Do not reuse this container. Thoroughly rinse empty container with water then place in trash or offer for recycling if available. If partly filled: see 'PESTICIDE DISPOSAL'.
