Mr. Michael R. Jennings
LPM Manufacturing, Inc.
3925 E. Broadway Road, Suite 100
Phoenix, AZ 85040

Subject: Chlor-Brite II
EPA Registration Number 11411-1
Application Date: 11/2/04
Receipt Date: 11/4/04

Dear Mr. Jennings:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update your label.

Conditions

Under the "Precautionary Statements" add the signal word "DANGER" before the word Highly Corrosive.

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

151

Emily H. Mitchell
Acting Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510C)

| FIRST AID | |
|--|--|
| If in eyes | <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. |
| If swallowed | <ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person. |
| If inhaled | <ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice. |
| If on skin or clothing | <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice. |
| <p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), call the National Pesticide Telecommunications Network at 1-800-858-7378.</p> | |
| NOTE TO PHYSICIAN | |
| Probable mucosal damage may contraindicate the use of gastric lavage. | |

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER:

Highly Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Irritating to nose and throat. Do not get in eyes, on skin or clothing. Do not breathe dust, vapor or spray mist. Wear protective eyewear (goggles or safety glasses). Wear protective clothing and rubber gloves when handling this product. Avoid breathing dust and fumes. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

{Environmental Hazard statement for end-use products in containers of less than 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

{Environmental Hazard statement for end-use products in containers equal to or greater than 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD: Strong oxidizing agent. Do not mix with other chemicals. Never add water to product. Always add product to large quantities of water. Use only clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material or other chemicals may start a chemical reaction with generation of heat, liberation of

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read all precautionary statements before use

START-UP (FRESHLY FILLED): When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a Free Available Chlorine (FAC) level of 1.0-3.0 ppm. Follow 'SUPERCHLORINATION' instructions below. It may be necessary to stabilize the pool water with Leslie's Swimming Pool Supplies Conditioner according to the label directions.

ROUTINE USE: Leslie's Swimming Pool Supplies Chlor Brite II should be added every other day or as needed at the rate of 2 ounces per 10,000 gallons of pool water to maintain a Free Available Chlorine (FAC) level of 1.0-3.0 ppm at all times as determined by a reliable test kit. The pH should be maintained between 7.2-7.8 (ideal pH is 7.4-7.6). Keep in mind that weather conditions, water temperature, bather usage and other factors can affect the water's chlorine demand. Additional dosages of Leslie's Swimming Pool Supplies Chlor Brite II may be required to maintain the FAC level between 1.0-3.0 ppm as determined by a reliable test kit. Re-entry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine due to risk of body injury. **ALGAE CONTROL:** Before using this product, brush all surfaces showing algae growth. Use Leslie's Swimming Pool Supplies Chlor Brite II at night or when pool is not in use. Broadcast the product into the deep-end of the pool with the pump running at a ratio of two pounds per 10,000 gallons of water for medium to heavy algae growth or one pound per 10,000 gallons of water for light algae growth. Use a pool brush to disperse any granules that may have settled on the bottom of the pool. Brush any remaining algae and clean/backwash filter. If algae are still present, repeat treatment. **SUPERCHLORINATION:** Broadcast one ounce of Leslie's Swimming Pool Supplies Chlor Brite II per 1,000 gallons of water directly to the deep end of the pool. To avoid damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of the pool. Do not allow undissolved product to rest against bleachable pool surfaces.

STORAGE AND DISPOSAL:

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Keep product dry in its original, tightly closed container when not in use. Store container in a cool, dry, well ventilated area away from heat or open flame. Storage area should be locked and inaccessible to children. **PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** If empty: Do not reuse this container. Thoroughly rinse empty container with water then place in trash or offer for recycling if available. If partly filled: see 'PESTICIDE DISPOSAL'.
