

U.S. ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS 767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

11411-3

TERM OF ISSUANCE

DATE OF EXPIRATION

JUN 30 1984

NOTICE OF PESTICIDE: REGISTRATION
 REREISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Leslie's Chlorinator Tablets

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Leslie's Poolmart
20222 Plummer St.
Chatsworth, CA 91311

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Revise the precautionary and practical treatment statements in your labeling in accordance with the enclosed Attachment A.
2. Under the Environmental Hazards statement revise the first sentence to read: "This product is toxic to fish and aquatic organisms."
3. Delete "... Dry and related isocyanurates" from the Active Ingredient statement. This statement is too broad.

ATTACHMENT AVAILABLE

NAME OF REGISTRANT

-10/5

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Enclosures

ISOCYANURATE RED ATTACHEMENT A

LABELING: (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

STATEMENT OF PRACTICAL TREATMENT.

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Keep Out of Reach of Children

DANGER

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF IN EYES, flush with cold water for at least 15 minutes. Get medical attention.

IF ON SKIN, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

IF SWALLOWED, drink large amounts of water. DO NOT induce vomiting. Contact a physician or poison control center immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may, contraindicate the use of gastric lavage.

SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
KEEP OUT OF REACH OF CHILDREN

DANGER: Highly corrosive. Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood

with large volumes of water if necessary.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not reuse container. Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in sanitary landfill or by methods approved by State and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS

Automatic In-line Chlorinators & Floating Dispensers: Add Leslie's Chlorinator Tablets - 1" according to the directions on your chlorinator.

Cartridge Chlorinators: Remove top of cartridge, refill with Leslie's Chlorinator Tablets - 1" and follow directions on cartridge. **Important:** Allow empty cartridge to dry before refilling.

DO NOT ADD TABLETS DIRECTLY INTO THE POOL OR THE POOL SKIMMER AS DAMAGE WILL OCCUR.

Startup:

- 1 Adjust pH to 7.2 to 7.6
- 2 Superchlorinate with Leslie's Power Powder or Leslie's Chlor Brite III to obtain a 1-1.5 ppm chlorine residual. Follow label directions
- 3 The next day, stabilize your pool using Leslie's Conditioner. Follow label directions.

Routine Care:

The amount of Leslie's Chlorinator Tablets - 1" to be added will vary with individual pool conditions such as water temperature, sunlight, organic contaminants and bather load

Maintain a chlorine residual of 1-1.5 ppm at all times. If chlorine residual fails to hold during periods of heavy use, increase feed rate or superchlorinate with Leslie's Power Powder. Maintain pH 7.2 to 7.6. Total Alkalinity 80-120 ppm for plaster pools, Total Alkalinity 100-140 ppm for vinyl-liner pools, calcium hardness 200 ppm minimum. Test with a reliable test kit such as Leslie's Deluxe Test Kit. Make necessary adjustments with appropriate Leslie's pool care products. Superchlorinate at least once per week during periods of heavy usage or when water temperatures are above 80°F and once every two weeks in residential pools receiving normal usage. This will burn out organic material and keep water sparkling clear. Reentry into treated swimming pool spas is prohibited above levels of 3 ppm of chlorine.
