

SECURITY

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
DANGER

If swallowed: Do not breathe dust. Avoid contact with skin. Wash thoroughly after using. Wash clothing and skin after application. Keep children and pets off treated area. This material has been watered in well and is safe for use on domestic animals in or on treated areas.

ENVIRONMENTAL HAZARDS

Pesticide is extremely toxic to wildlife. Use with care when applying to areas frequented by wildlife. Keep out of water courses and streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

In accordance with the provisions of Federal Law to use this product in accordance with this labeling.

SECURITY TURF-CAL GRANULAR is for use as a pre-emergent of crabgrass in established turf, such as fairways, parks, golf courses and lawns located on industrial sites. Do not use on home lawns. **SECURITY TURF-CAL GRANULAR** will also control POA ANNUAL Bluegrass, chickweed and soil insect grubs (Japanese beetle, Asiatic Beetle and white grubs). The recommended rate for control of these soil insect grubs is 10 lbs. per 1000 sq. ft. when used preventively when a rate of either 8 or 10 lbs. per 1000 sq. ft. is used for crabgrass control (refer to table below for control of grubs in effect).

TIME OF APPLICATION

SPRING Apply after ground is free from frost and well before grass and Poa Annua germinate. March and April are the best times for treatment. Applications made later may not be effective that year.

FALL To control crabgrass and Poa Annua apply to well watered lawns before ground freezes.

APPLICATION AND AMOUNT TO USE Rake turf area free of leaves. If necessary, so granules reach soil surface. Moisture must be present and uniformly apply required amount using any type of spreader. Cross-treating with one half required amount in opposite direction will give best results. If rain is not expected immediately after application, sprinkle turf thoroughly. Apply to lawns.

CRABGRASS AND POA ANNUA CONTROL

Species of Grass	Type of Soil	Amount per 100 sq. ft.	When to apply
Bluegrass, Kentucky Bluegrass, Perennial Ryegrass, Annual Ryegrass, Tall Fescue, Bermudagrass, Zoysia, St. Augustine, Centipede, Bahiagrass, Paspalum, and other warm season grasses	Well watered	8 lbs.	Spring and Fall
Bluegrass, Kentucky Bluegrass, Perennial Ryegrass, Annual Ryegrass, Tall Fescue, Bermudagrass, Zoysia, St. Augustine, Centipede, Bahiagrass, Paspalum, and other warm season grasses	Well watered	10 lbs.	Spring and Fall

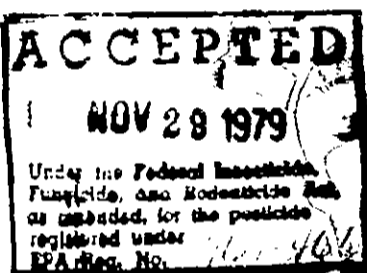

GRANULAR

ACTIVE INGREDIENT

Triphenyltin Hydroxide

INERT INGREDIENTS

Water, Polyethylene Glycol, Sodium Bicarbonate, Sodium Chloride, Sodium Sulfate, Sodium Nitrate, Sodium Phosphate, Sodium Silicate, Sodium Sulfate, Sodium Nitrate, Sodium Phosphate, Sodium Silicate, Sodium Sulfate, Sodium Nitrate, Sodium Phosphate, Sodium Silicate.

BEST DOCUMENT AVAILABLE

KEEP OUT OF REACH OF CHILDREN.
STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED Do not induce vomiting. If swallowed, give 1-2 glasses of water. If vomiting occurs, give more water. **CALL A PHYSICIAN IMMEDIATELY.** **IF IN EYES OR SKIN** Wash with plenty of water. Get medical attention if irritation persists.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

RETREATMENT Apply to lawns in the fall and again in spring as in the directions for use. Retreat lawns in spring as in the directions for use. Retreat lawns in spring as in the directions for use.

WHERE POA ANNUA IS A MAJOR PROBLEM - SPRING TREATMENT Apply to lawns in the fall and again in spring as in the directions for use. Retreat lawns in spring as in the directions for use.
