

JUN 12 2003

Mr. Michael R. Jennings
LPM Manufacturing, Inc.
3925 E. Broadway Road, Suite 100
Phoenix, AZ 85040

Subject: Leslie's Floating Chlorinator
EPA Registration Number 11411-5
Application Date: 4/15/03
Receipt Date: 4/18/03

Dear Mr. Jennings:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- Per your letter dated April 15, 2003

Conditions

1. You must provide a Hotline Telephone Nnumber under the First Aid Statement as per PR Notice 2001-1.
2. Under the "Ingredient" Statement change "ailable Chlorine" to read: "Available Chlorine".

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Robert S. Brennis
Product Manager 32

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
NOTE TO PHYSICIAN	Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or clothing. Do not breathe dust, vapor or spray mist. Irritating to nose and throat. Wear goggles, face shield or safety glasses. Wear protective clothing and gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

{Environmental Hazard statement for end-use products in containers of less than 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

{Environmental Hazard statement for end-use products in containers equal to or greater than 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, rivers, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Strong oxidizing agent. Do not mix with other chemicals. **Never add water to product.** Always add product to large quantities of water. Use only clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire or explosion. Avoid contact with flaming or burning material, such as a lighted cigarette. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area and flood with large amounts of water.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

DO NOT ADD LESLIE'S 1" CHLOR TABS DIRECTLY INTO THE POOL OR THE POOL SKIMMER AS DAMAGE WILL OCCUR.

IMPORTANT: Allow the empty cartridge to dry before refilling.

STARTUP: 1. Adjust pH to 7.2-7.8 (ideal pH is 7.4-7.6), Total Alkalinity to 80-120 ppm depending on type of primary sanitizer used (80-100 ppm for sodium hypochlorite, calcium hypochlorite or lithium hypochlorite and 100-120 ppm for dichlor, trichlor or bromine tablets) and Calcium Hardness to 200 ppm minimum. 2. Superchlorinate with Leslie's **Power Powder Plus, Power Powder Pro** or **Chlor Brite** to obtain a Free Available Chlorine (FAC) level of 1.0-3.0 ppm. Follow use directions on those product labels. 3. The next day, stabilize your pool using Leslie's **Conditioner**. Follow label directions.

ROUTINE USE: The amount of Leslie's **1" Chlor Tabs** that must be added on a routine basis will vary with individual pool conditions such as bather load, water temperature, organic contaminants and other conditions. Normally, 2-4 tablets per 10,000 gallons of pool water will be needed daily or every other day. Maintain a Free Available Chlorine (FAC) level of 1.0-3.0 ppm at all times. It may be necessary to increase the chlorinator feed rate or superchlorinate during heavy periods of use to maintain this FAC level. Maintain pH between 7.2-7.8 (ideal pH is 7.4-7.6), Total Alkalinity between 80-120 ppm depending on type of primary sanitizer used (80-100 ppm for sodium hypochlorite, calcium hypochlorite or lithium hypochlorite and 100-120 ppm for dichlor, trichlor or bromine tablets) and Calcium Hardness between 200-400 ppm. Test regularly with a reliable test kit and make the necessary adjustments using the appropriate Leslie's pool care product. To remove excessive organic materials and keep the water sparkling clear, superchlorinate weekly with Leslie's **Power Powder Plus, Power Powder Pro** or **Chlor Brite** when water temperatures are above 80°F. Follow use directions on those product labels. You may only need to superchlorinate every other week when water temperatures are below 80°F. Reentry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine due to risk of body injury.

STORAGE AND DISPOSAL:

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Keep product dry in its original, tightly closed container when not in use. Store container in a cool, dry, well ventilated area away from heat or open flame. Storage area should be locked and inaccessible to children **Container Disposal:** Do not reuse empty container. Thoroughly rinse empty container with water then place in trash or offer for recycling if available.
