

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
AND DOMESTIC ANIMALS**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**Environmental Hazards:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

**Physical and Chemical Hazards**

**Strong Oxidizing Agent:** Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

# LESLIE'S JUMBO CHLORINATOR TABLETS

**Designed for Use in Automatic Flow-through  
Cannister Type, and Cartridge Chlorinators**

**Active Ingredient:**

Trichloro-s-triazinetriene . . . . 100%  
(90.0% available chlorine)

**Keep Out of Reach of Children**

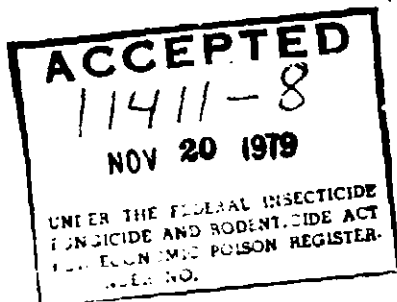

## **DANGER**

**Practical Treatment: (First Aid):** If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

**If on Skin:** Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

**If in Eyes:** Flush with cold water for at least 15 minutes. Get medical attention.

**SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL**

# LESLIE'S JUMBO CHLORINATOR TABLETS

for Use in Automatic Flow-through  
Type, and Cartridge Chlorinators

lient:

iazinetriene ..... 100%  
(available chlorine)

Reach of Children

ment: (First Aid): If swallowed, feed bread soaked in milk  
or oil or cooking oil. Call a physician immediately.  
Flush off excess chemical and flush skin with cold water for  
minutes. If irritation persists, get medical attention.  
Flush with cold water for at least 15 minutes. Get medical

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

### DIRECTIONS

**Automatic Flow-Through and Canister Type Chlorinators:** Add Leslie's Jumbo Chlorinator Tablets according to the directions on your chlorinator.

**Cartridge Chlorinator:** Remove top of cartridge, refill with Leslie's Jumbo Chlorinator Tablets and follow directions of cartridge. **Important:** Allow empty cartridge to dry before refilling.

The amount to be added will vary with individual pool conditions such as water temperature, sunlight, organic content and bathing load. Maintain a chlorine residual of 1.0 to 1.5 ppm in the pool at all times.

### IMPORTANT

Keep the pH of the water between 7.2 to 7.6. Leslie's Jumbo Chlorinator Tablets dispense chlorine and acid, so tend to lower pH. If your pool normally requires acid for pH regulation, Leslie's Jumbo Chlorinator Tablets will substantially aid in maintaining proper pH. If you normally do not need acid for pH regulation, you must add 1 lb. of soda ash to water each time a fresh 4 lbs. of tablets is added. If chlorine residual fails to hold during periods of heavy use, increase feed rate and/or superchlorinate.

If tablets or dry chlorine have not been used before or if the pool has been freshly filled, it is necessary to condition pool water before following above DIRECTIONS.

When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 to 1.5 ppm available chlorine.

**NEVER ADD DIRECTLY INTO THE POOL  
AS DISCOLORATION COULD OCCUR**

### Storage and Disposal

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.
