Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - revise company logo, correct spelling, add clarifying information for the production establishments, edit net contents information, and add a graphic
Product Name: LESLIE'S SWIMMING POOL SUPPLIES ALGAE CONTROL
Admin Number: 11411-11
EPA Receipt Date: 05/06/2024
Action Case Number: 00610812

Dear Jamal Koledoye:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Peter Grap by telephone at (513) 569-7572 or via email at grap.peter@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Marcel Howard". The script is elegant and cursive, with the first letters of each name being capitalized and prominent.

Marcel Howard, Product Manager, Team 34

If on Skin or Clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies, call the Poison Control Center at 1-800-222-1222.	

PRECAUTIONARY STATEMENTS

HAZARD[S] TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

{Environmental Hazard statement for end-use products in containers of less than 5 gallons (liquid)}

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish, aquatic invertebrates and clams.

PHYSICAL OR CHEMICAL HAZARD: Do not mix with other chemicals. This product is a reducer. Keep away from oxidizing agents.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[READ ALL PRECAUTIONARY STATEMENTS BEFORE USE]

It is recommended that gloves made of barrier laminate, rubber (butyl, nitrile, neoprene or natural) with a minimum thickness of 14 mils, polyethylene, PVC or viton with a minimum thickness of 14 mils be worn when using this product.

HOW TO USE: [This product] [brand name] is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and containerized ponds that **do not** contain fish. For maximum effectiveness, pools, spas, whirlpools, hot tubs, decorative fountains and containerized ponds containing heavy growth of algae must be cleaned prior to using this product. Before draining a treated swimming pool, exterior spa, whirlpool, hot tub or decorative fountain, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated swimming pool, exterior spa, whirlpool, hot tub or

decorative fountain water to any location that flows to a gutter or storm drain or natural body unless discharge is allowed by state and local authorities.

ROUTINE USE: For pools having just visible algae growth add an initial dose of 11 to 16 fluid ounces of [this product] [brand name] per 10,000 gallons of water and remove settled algae. For treatment of freshly cleaned and filled pools, add 6 to 11 fluid ounces of [this product] [brand name] per 10,000 gallons of water. Subsequent additions of 2 to 4 fluid ounces of [this product] [brand name] per 10,000 gallons of water must be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, decorative fountains and containerized ponds having just visible algae growth require an initial dose of 1 to 2 fluid ounces of [this product] [brand name] per 1,000 gallons of water. For treatment of a freshly cleaned spa, whirlpool, hot tub, decorative fountain or containerized pond, add 0.6 to 1.1 fluid ounces of [this product] [brand name] per 1,000 gallons of water. Subsequent additions of 0.2 to 0.4 fluid ounces of [this product] [brand name] must be made every 5 to 7 days after initial treatment for maintenance.

[This product] [brand name] will prevent growth of most algae during the off-season winter months when pools are not in use. For pools that have been properly treated during the swimming season and are free of visible algae, add 6 to 10 fluid ounces of [this product] [brand name] per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 12 to 16 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of [this product] [brand name] throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off-season.

[This product] [brand name] is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. [This product] [brand name] can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, **do not** mix [this product] [brand name] with concentrated dry or liquid chlorine products.

{Storage and Disposal information may/may not be framed by border lines}

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep product in its original, tightly closed container when not in use. Storage area must be locked and inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on the site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available, or discard in trash or in a sanitary landfill.
