**POOLTREET
 CONCENTRATE
 Algaecide**

DIRECTIONS FOR USE

In freshly filled pools or pools showing no algae growth, add quantity of **POOLTREET CONCENTRATE ALGAECIDE** as follows:

- 2 ounces to 4,000 gallons of water
- 4 ounces to 8,000 gallons of water
- 8 ounces to 16,000 gallons of water
- 1 pint to 32,000 gallons of water

Repeat treatment every 5 to 7 days, depending on weather and use of pool

Where algae growth is present, add a shock treatment as follows to kill algae.

- 5 ounces to 4,000 gallons of water
- 10 ounces to 8,000 gallons of water
- 20 ounces to 16,000 gallons of water
- 40 ounces or
- 1 1/4 quarts to 32,000 gallons of water

Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear repeat this treatment procedure as necessary. When pool is free of visible algae use the recommended dosage for pools showing no algae growth.

Add directly to pool water where circulation is greatest, at or near pump

More accurate control can be obtained with the use of quaternary test kits. These kits are available from your serviceman, dealer or the manufacturer. A 2 to 5 parts per million quaternary ammonium residual should be maintained at all times for best results.

Persistent algae spots may require treatment with a sponge soaked in concentrated **POOLTREET CONCENTRATE ALGAECIDE** solution.

 CONCENTRATE
 Algaecide**

ACTIVE INGREDIENTS

n-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆) dimethyl benzyl ammonium chloride 50%

INERT INGREDIENTS 50%

EPA EST. NO. 11463-MI-1 Michigan State
 EPA REG. NO. 11463-5 Reg. No. 2406

DANGER

KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg white, gelatin solution. If these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

KEEP OUT OF REACH OF CHILDREN

**POOLTREET
 CONCENTRATE
 Algaecide**

POOLTREET CONCENTRATE ALGAECIDE is a specially formulated algaecide for use in home or public swimming pools for the correction and prevention of (green water) algae. It also aids in the elimination of odors, unsightly and slippery deposits on walls and ladders, as well as in filters, lines and pumps due to algae.

POOLTREET CONCENTRATE ALGAECIDE is compatible with all waters and chemicals normally used in treating swimming pools at use strength. **DO NOT** mix with other concentrated chemicals.

POOLTREET CONCENTRATE ALGAECIDE is not compatible with soap or anionic detergents. If they are used to clean a pool, flush or rinse off thoroughly before adding **POOLTREET CONCENTRATE ALGAECIDE**.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Use only as directed.

CONTAINER DISPOSAL

Rinse empty container thoroughly with water and discard it.
