

TOWER TREAT M

Control Algae, bacteria and fungi in industrial recirculating and water cooling towers.

ACTIVE INGREDIENTS	
Dipotassium cyanodithioamdocarbonate	4.2%
Sulfassyl-A dimethylthiocarbamate	5.8%
INERT INGREDIENTS	
	90.0%
TOTAL	100.0%
This product contains 0.89 lb. of active ingredient per gallon and weighs 9.90 lb. per gallon.	

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Cause eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, give patient doses of powdered charcoal immediately or all he can swallow of raw egg white, milk, gruel or flour and water. Then induce vomiting with salt soap or mustard in warm water. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance, contact your Regional Office of the EPA.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TOWER TREAT M is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, towers must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 6.0 to 11.0 fluid ounces of TOWER TREAT M per 1000 gallons of water is recommended. Repeat initial dosing if growth is evident.

Subsequent slug additions of 2.0 to 11.9 fluid ounces of TOWER TREAT M per 1000 gallons of water should be employed every 1 to 5 days, as needed. The frequency of addition depends upon the relative amount of bio-film and the severity of the microbiological problem. Slug additions should be made to the sump of water cooling towers.

STORAGE & DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide spray mixture or residue that cannot be used or chemically reprocessed should be disposed of in an approved manner, pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in an approved landfill or bury in a safe place. Empty containers over 30 gallons should be resealed before offering for recycling.

GENERAL: Consult Federal, State or Local disposal authorities for approved alternative procedures.
