

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER**

Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. May be harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, or smoking tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 9-1-1 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Questions? 1-800-463-9179 or call poison control center.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

DISPOSAL INSTRUCTIONS:

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

ALGAE-GON

CONCENTRATED SWIMMING POOL ALGAECIDE KEEPS POOL WATER CLEAR CONTROLS ALGAE SLIMES

ACTIVE INGREDIENTS:	By Weight
n-Alkyl (60%C ₁₄ , 30%C ₁₆ , 5%C ₁₂ , 5%C ₁₈) dimethyl benzyl ammonium chlorides	5%
n-Alkyl (68%C ₁₂ , 32%C ₁₄) dimethyl ethylbenzyl ammonium chlorides	5%
INERT INGREDIENTS	90%
TOTAL	100%

E.P.A. REG. NO. 11474-1 E.P.A. EST. NO. 11474-CA-01

MANUFACTURED BY:
SUNGRO CHEMICALS, INCORPORATED
P.O. BOX 24632
LOS ANGELES, CA. 90024

NET CONTENTS _____ GALLONS (LITERS)

When ALGAE-GON is used as directed, it will kill and prevent development of Chlorella pyrenoidosa (green), Phormidium inundatum (black algae), Phormidium retzii (Square D algae), Lyngba versicolor (blue-green) and other swimming pool algae.

NOTE: Kill refers to initial dosage and prevent refers to maintenance dosage.

ALGAE-GON is compatible with most commonly used swimming pool chemicals but should not be mixed with soap or other cleaners or pre-mixed with other water treating chemicals. ALGAE-GON works best when added by itself directly to pool water. ALGAE-GON at use dilution is noncorrosive to inanimate surfaces.

DIRECTION FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INITIAL DOSAGE: One gallon ALGAE-GON to 50,000 gallons of water.

MAINTENANCE DOSE: One quart ALGAE-GON to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming pool seasons. If pool has visible growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free from visible algae, use the recommended maintenance dose.

Allow at least one (1) hour after using this product before entering the pool. Water circulation pumps may remain on during treatment.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If makeup water is added at the rate of more than 10% per week of pool capacity, add one quart ALGAE-GON for each 10,000 gallons of fresh make-up water per week.

When the swimming pool season is over, add one gallon of ALGAE-GON to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

Seller makes no warranty, expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herein.
