

NUMB BUG

DIRECTIONS FOR USE

SPACE SPRAY TO KILL FLIES, MOSQUITOES, SMALL FLYING MOTHS AND GNATS: Cover or remove exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilating equipment. Apply with mechanical or compressed air sprayer, or with fogger which gives small particle size. Direct spray upwards towards upper corners of room and ceiling. Apply at the rate of 1.25 to 2.5 fluid ounces per 1000 cu. feet of space to be treated. Do not remain in treated areas. Ventilate the area after treatment is completed. Repeat as necessary for insect control.

CONTACT OR SURFACE SPRAY TO KILL ROACHES, WATERBUGS AND ANTS: Cover or remove food before application as described under space spray. Apply with a sprayer that gives large wetting droplets. Force spray into cracks and crevices in walls and floors, areas at base of machinery, behind cabinets, around pipes and openings, along baseboards and other insect harborages. Use 2½ gallons of spray per 1000 sq. feet of surface to be treated. For ants, spray trails and all points of entry into building. Spray ant nests directly with a soaking application. In all cases contact as many insects as possible with the spray. Repeat applications as necessary for control.

FOGGING AND CONTACT SPRAY

FOR USE IN HOMES, INDUSTRIAL PLANTS AND FOOD PROCESSING PLANTS

ACTIVE INGREDIENTS	100%
d-trans Allethrin (allyl homolog of Cinerin I)	0.10%
*Piperonyl butoxide, technical	0.20%
N-octyl bicyclopheptene dicarboximide	0.33%
Petroleum distillate	99.34%

*Consists of 0.160% (butylcarbityl) (6-propyl-piperonyl) ether and 0.04% other related compounds.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN

HARMFUL IF SWALLOWED
