

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Avoid contamination of feed or food stuffs.

Remove pets, birds and cover fish aquariums before spraying.

FIRST AID:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 9-1-1 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Questions? 1-800-463-9179 or call poison control center.

NOTE TO PHYSICIAN:

Contains petroleum distillates vomiting may cause aspiration pneumonia. If gastric lavage is deemed necessary, undertake only after proper placement of a cuffed endotracheal tube.

PHYSICAL HAZARDS

Do not store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

DISPOSAL INSTRUCTIONS:

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NET CONTENTS ___ GALLONS (LITERS)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SPACE SPRAY TO KILL FLIES, MOSQUITOES, SMALL FLYING MOTHS AND GNATS:

Cover or remove exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilating equipment. Apply with mechanical or compressed air sprayer, or with fogger which gives small particle size. Direct spray upwards towards upper corners of room and ceiling. Apply at the rate of 1.25 to 2.5 fluid ounces per 1000 cu. feet of space to be treated. Do not remain in treated areas. Ventilate the area after treatment is completed. Repeat as necessary for insect control.

CONTACT OR SURFACE SPRAY TO KILL ROACHES, WATERBUGS AND ANTS:

Cover or remove food before application as described under space spray. Apply with a sprayer that gives large wetting droplets. Force spray into cracks and crevices in walls and floors, areas at base of machinery, behind cabinets, around pipes and openings, along baseboards and other insect harborages. Use 2 1/2 gallons of spray per 1000 sq. feet of surface to be treated. For ants, spray trails and all points of entry into building. Spray ant nests directly with a soaking application. In all cases contact as many insects as possible with spray. Repeat applications as necessary for control.

Seller guarantees that this material conforms to the chemical description on the label, and is effective for the purpose claimed when used in accordance with the label instructions. The buyer assumes all risks and responsibility for use and/or handling of this product when such use or handling is not in accordance with label instructions. No other warranty expressed or implied is authorized by seller.
