**PRECAUTIONARY STATEMENT
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING

Causes eye irritation. May be fatal if swallowed, inhaled, or absorbed through the skin. Do not get it on your skin or on clothing. Do not breathe spray mist. Wash thoroughly with soap and warm water after handling. Wash clothing with soap and hot water before reuse.

Avoid contact with food and feed. Keep out of reach of children.

If splashed in eyes, immediately flush eyes with plenty of water for at least 15 minutes. Get other treatment from a physician.

If swallowed, induce vomiting by giving a tablespoonful of salt in a glass of warm water. Administer milk or water freely and again induce vomiting until vomit is clear.

If poisoning occurs, obtain prompt medical aid.

Note to Physician: May cause cholinergic depression. Atropine sulfate is antidote. CPAM is an antidote and may be administered in conjunction with atropine.

ENVIRONMENTAL HAZARDS

Do not use on other crops used for food or forage. Use only according to label directions. Application at rates above those shown may result in excess crop residues. Top of treat food crops grown in the greenhouse.

This product is toxic to fish and wild life. Birds feeding on treated areas may be killed. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal wastes. Keep out of streams, lakes, or ponds. Do not apply when weather conditions favor drift or spray from treatment area.

PHYSICAL OR CHEMICAL HAZARDS

DO NOT USE HOUR GLASS OR THERMOMETER NEAR HEAT OR OPEN FLAME.

**SUNBUGGER SS
SYSTEMIC SPRAY
SYSTEMIC INSECTICIDE**

CONTAINS META-SYSTOX-R®

ACTIVE INGREDIENTS

S-2 (ethylsulfanyl) ethyl O, O-Dimethyl phosphorothioate*	2.0%
Aromatic Petroleum Distillate	51.0%
Methyl Isobutyl Ketone	40.0%

INERT INGREDIENTS

7.0%
*U.S. Patent No. 2,791,599 - Canadian Patent No. 534,370
Meta-Systox-R® is the Reg. TM of the Parent Company of Farb-
fabriken Bayer GmbH, Leverkusen.

KILLS: Aphids, Mites, Thrips, Whiteflies, Leafhoppers,
and Holly Leaf Miner on ornamental shrubs and flowers.

WARNING:

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Systemic SS kills aphids, mites, thrips, whiteflies, leafhoppers, and holly leaf miner on ornamental trees, shrubs, and flowers. SYSTEM kills insects that come in direct contact with spray solutions. In addition, when spray solutions are applied to plant foliage and root system, they are absorbed into the plant and kill sucking insects that feed on the plant sap.

SYSTEM mixes readily with water and may be used in all types of sprayers. Applications should be made before insects appear or shortly after they are seen feeding on plant foliage.
HOW TO USE - IN COMPRESSED AIR SPRAYER: For use in hand or knapsack-type sprayers, add 3 1/2 ounces per gallon of water (1 to 3% dilution) and spray plants until they are thoroughly wet. Repeat as necessary to maintain insect control.

IN GARDEN HOSE SPRAYERS: For use in hose-end type garden sprayers, add 3 1/2 ounces of SYSTEM for each gallon of final spray. To prepare six (6) gallon of final spray, pour 21 1/2 ounces of SYSTEM into the sprayer jar and fill with water to the six (6) gallon mark. Spray plants until they are thoroughly wet. Repeat applications as necessary to maintain insect control. Follow the recommendations of the manufacturer of your particular hose-end sprayer.

STORAGE AND DISPOSAL

CONTAINER DISPOSAL: DO NOT REUSE THE CONTAINER. Completely empty the contents and bury the crushed container at least 18 inches deep in an isolated location away from water supplies. Rinse spray equipment and empty container by filling with water and adding 2 tablespoonful of household lye. Rinse solution and container at least 18 inches deep in an isolated area away from water supply. Break empty container and bury deeply in an isolated location.

Do not use container in any connection with treatment of drinking water.

NOTICE: Keep from freezing. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, allow to warm to room temperature and stir thoroughly.
