PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes...

Do not use in commercial food processing, preparation, food storage or serving areas. In the home, all food processing surfaces and glassware should be covered during treatment...

Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL HAZARDS

DO NOT STORE NEAR HEAT OR OPEN FLAME.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool dry place. Keep container closed.

Pesticide Disposal: Pesticides or wastes that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides...

Container Disposal: Containers of 20 gallons or more—recycle container and offer for reconditioning...

Other Containers—Triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place.

General: Contact Federal State or local disposal authorities for approved alternative procedures.

NOTE: When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation.

SUNBUGGER #99
FOGGER AND CONTACT SPRAY

A PYRETHROID FORMULATION FOR CONTROL OF LISTED INSECTS

For Use Only in Household and Non-food Areas of Industrial Buildings, schools, warehouses, office buildings, theaters, garages, hotels, motels, hospitals, barns.

E.P.A. Reg. No. 11474-23 E.P.A. Est. No. 114742A01

MANUFACTURED BY:

SUNGRO CHEMICALS INCORPORATED
P.O. BOX 24632 LOS ANGELES, CALIFORNIA 90024

IN LISTED STRUCTURES: Use spraying device similar to a standard machine or cold aerosol generator such as MACHO-GUN or LEGG.

To Kill Flies, Mosquitoes, Small Flying Insects and Spiders: Close room, work area to control area to be treated and shut off all ventilating systems. Dispense this product as a fine mist. Use a dosage of one-half ounce per 1000 cubic feet of room space. Do not remain in treated areas. Leave room closed for 1/2 hour. Ventilate the area after treatment is completed. Repeat application as necessary for pest control.

IN PESTICIDED ZONE SPACES FOR BETTER CONTACT: To kill the listed insects, the diluted spray should be used at rate of 1 gallon per 1000 square feet of surface area.

To Kill Cockroaches, Ants and Spiders: Contact as many insects as possible with the spray to achieve thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind doors and refrigerators and wherever these pests are suspected of hiding.

To Kill Ants: Treat doors, ground window frames, and walls and other areas of entry. Repeat as necessary.

To Kill Small Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Exposed Forms of Contaminated Flour, Beans, Rice, Sealed Cans, Soda, and Other Items: Place and directly infested package foods. Remove all other items from pantry before the insecticide is applied to all areas of the room. Place clean paper on the shelves and return products after shelves have dried. Apply as a coarse wet spray to all other areas infested with these insects. Pay particular attention to crevices and voids in doors, walls and ceilings. Repeat as necessary.

To Kill Spiders, Beetles and Gnats: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind doors and refrigerators and machinery.
