MAR 2 1991

Mr. Harold B. Igdaloff
Sungro Chemicals, Inc.
P.O. Box 24632
Los Angeles, CA 90024

Dear Mr. Igdaloff:

Subject: Resmethrin Standard - Corrected Labels
Sunbugger 15 Multi-Purpose Insecticide Concentrate
EPA Registration Nr. 11474-29
Your Submission Dated February 1, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As labels are reprinted, add appropriate text for the ENVIRONMENTAL HAZARD statement for outdoor use (Not RESTRICTED USE) from the Resmethrin Standard.

Also consult the Standard concerning the declaration of Resmethrin in the label ingredient statement.

Sincerely yours,

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed before treatment or covered in such a way as to prevent contamination. Food contact surfaces and equipment must be washed with an effective cleaning compound followed by a potable water rinse after treatment. Wash all contaminated clothing with soap and hot water before reuse. Remove pets, birds, and cover fish aquaria before spraying. In hospitals, patients should be removed from room prior to treatment. Rooms should be ventilated for two hours after spraying. Do not return patients to room until after ventilation. Avoid breathing of vapor or skin contact. Avoid contact with eyes. In case of contact, flush eyes with water. Do not smoke while spraying. Do not use on or around animals except as indicated on label.

ENVIRONMENTAL HAZARDS

Do not apply outdoors when weather conditions favor drifts from area treated. This product is toxic to fish and birds. Do not apply directly to lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with the directions given herewith.

PHYSICAL OR CHEMICAL HAZARDS

Flammable: Keep away from heat and open flame. Water dilutions should be prepared at room temperatures. Exposure to low temperatures may cause cloudiness or crystallization. Prepare only the amount required for immediate use.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SURFACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 9 parts water. The diluted spray should be applied in conventional mechanical or compressed air equipment. It is not recommended for use in thermal generating equipment.

To control: cockroaches, ants, spiders, silverfish, crickets, centipedes, earwigs, sowbugs, and grain mites:

Apply as a coarse droplet spray directed into cracks, crevices along baseboards, around the bases of machinery and under pallets. Treat all returned bottle cartons and cases. Spray thoroughly contacting insects directly whenever possible. Spray badly infested areas daily. In other areas repeat treatment twice weekly or when reinfestation occurs.

**SUNBUGGER 15
MULTI-PURPOSE
INSECTICIDE
CONCENTRATE**

Combining Two Highly Active Synthetic
Pyrethroid Compounds
A Water Emulsifiable Insecticide Concentrate

For use in Bakeries, Bottling Plants, Canned Food Plants, Flour Mills, Food Processing Plants, Hospitals, Hotels, Restaurants, Schools, Horse Barns, and on Ornamental Plants in Homes, Gardens, and Greenhouses.

NET CONTENTS _____ GALLONS

This concentrate should be applied by air spraying or for use in thermal generators. To control household insects, close doors and windows. Apply as a coarse droplet spray at the rate of 1 part concentrate to 9 parts water. Use caution on ornamental plants. To control mealybugs, aphids, and other insects on ornamental plants, use a fine mist spray. Do not spray bearing fruit. Do not spray directly on ornamental plants.

ON ORNAMENTAL PLANTS: Use a rate of 1 part concentrate to 9 parts water. To control mealybugs, aphids, and other insects on ornamental plants, use a fine mist spray. Do not spray bearing fruit. Do not spray directly on ornamental plants.

Do not contaminate water that cannot be disposed of according to procedures. CONTAINER DISPOSAL: Offer for recycling or in a sanitary landfill. State and local authorities should be consulted for disposal procedures.
