Mr. Harold Igdaloff
Sangre Chemicals, Inc.
P.O. Box 24132
Los Angeles, CA 90024

Dear Mr. Igdaloff:

Subject: Sanbugger Water Base Insecticide Spray
EPA Registration No. 11474-30
Your Final Labels Received February 12, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

At the next printing of labels, no longer than one (1) year after the date stamped on this letter, correct the typographical errors in the label such as the spelling of ornamentals, trails, spirea, and cottoncaster.

Also, submit a revised Confidential Statement of Formula in the next six (6) months.

Sincerely yours,

Phil Matten
Product Manager (17)
Insecticide-Rodenticide Branch
Registration Division (E7509C)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed. Avoid breathing of vapor or contact with skin, eyes, or clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention in case of serious poison. Do not smoke while spraying. Remove pets, birds and cover fish aquariums before spraying. Do not remain in treated areas.

For Household Use Only: cover or remove exposed foods. All food preparation surfaces should be covered during treatment or thoroughly washed before using.

This pesticide is highly toxic to fish. Do not apply directly to water or wet foods (e.g., shrimp, fish, crabs, and poultry). Do not runoff from treated areas may be hazardous to fish and other water life. Do not contaminate water when disposing of equipment and washwater.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Keep out of lakes, ponds or streams. Do not allow to come in contact with any kind of equipment or disposal of wastes.

DIRECTIONS FOR USE

For use on all of the following insects, use this product in manner described on each label.

SHAKE WELL BEFORE USING

INSECTIONS: For control of house flies, mosquitoes and gnats. Close all doors and windows. Direct the spray into all parts of the room, especially windows and other high corners which harbor these insects. Do not spray with mist, then close the room and wait for at least 15 minutes. Ventilate the room when spraying is completed.

INSECTIONS: For control of cockroaches, crickets, grasshoppers, katydids, spiders and earwigs.

Spray thoroughly into hiding places such as cracks, crevices, under openings around the pipes, under refrigerators, baseboards and storage areas. Spray directly on insects when possible. Repeat as necessary.

ANTS: Spray into nest and perimeters only. Spray outdoors where possible. Repeat as necessary.

CUTTHROATS: To reduce annoyance from flying insects. To kill mosquitoes, gnats (gnats), house flies, biting flies and other insects (gnats).

Follow precautions listed above. Apply the spray 14 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion while moving away from the treated area. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the sun is still. Allow spray to dry before occupying the treated area. Repeat as necessary.

CUTTHROATS: For control of mosquitoes and gnats.

A. Following a possible infestation, use this product in hiding places, such as cracks, crevices, under openings around the pipes, under refrigerators, baseboards and storage areas.

Do not apply this product through any type of irrigation system.
