**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Avoid breathing of vapor or contact with skin, eyes, or clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists. Do not smoke while spraying. Remove pets, birds and cover fish aquariums before spraying. Do not remain in treated areas. For Household Use Only: Cover or remove exposed foods. All food preparation surfaces should be covered during treatment or thoroughly cleaned before using.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in manner inconsistent with it's labeling.

SHAKE WELL BEFORE USING

INDOORS: For control of house flies, mosquitoes and gnats. Close all doors and windows. Direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area for at least 15 minutes. Ventilate the room when treatment is completed.

INDOORS: For control of cockroaches, earwigs, grain mites, sowbugs, spiders and centipedes.

Spray thoroughly into hiding places such as cracks, crevices, moist areas, opening around the pipes, under refrigerators, baseboards and storage areas.

Spray directly on insect where possible. Repeat as necessary.

ANTS: Spray trails, nest and points of entry. Spray on ants where possible. Repeat as necessary.

OUTDOORS: To reduce annoyance from flying insects. To kill mosquitoes, gnats (midges), house flies, biting flies and flying moths (millers).

Follow precautions listed above. Apply the spray 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS: To protect ornamental plants.

Apply using a good sprayer to deliver a fine mist, spraying from 18 to 24 inches.

Do not apply this product through any type of irrigation system

Ornamental Quince, Juniper, Cypress, Ornamental Highberry, Ash Cotoneaster, Rose, Camellia, Azalea, Pyracantha and Camellia may also be treated to control the above pests, but use with extreme caution. Certain varieties have shown some leaf burn under certain conditions of use, such as a heavy dosage.

Repeat as necessary to obtain control.

OUTDOORS: To protect house plants.

Spray infested African Violet, Philodendron, Geraniums, Begonias, coleus for control of listed pests. Repeat as necessary.

OUTDOORS: To control nuisance pests on or entering buildings.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible.

Repeat as necessary.

WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible.

Repeat as necessary.

SPIDERS: Spray directly on spiders and repeat as necessary.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL

Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

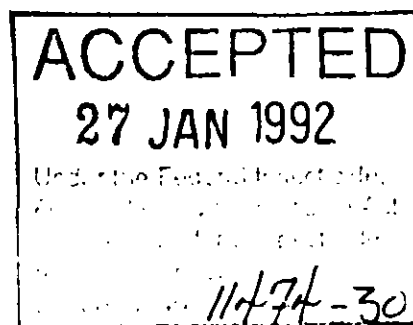

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY

Buyers assume all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
