

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidote of choice.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surface until spray has dried.

PHYSICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTION FOR USE

General Classification: SHAKE WELL BEFORE USE.
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General: Use Residual Spray from D-TRANS[®] Intermediate 2247 as a spot treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

SUNGRO 

**RESIDE DU
PROFESSIONAL STRENGTH**

EPA Reg. No. 11474-40

EPA Est. No. 11474CA01

To Kill Cockroaches, Ants, Crickets, Silverfish, Spiders and Sowbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards and door and window frames, behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment of pet areas. Additionally, treat pets with an E.P.A. approved product registered for direct application to pets.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
