NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 11474-78."

b. Delete the reference to "... Official Establishments Operating Under the Meat, Poultry, Shell Egg Grading, and Egg Products Inspection Programs ..." until you can verify to us that this pesticide has been approved by the U.S. Department of Agriculture under those programs.

3. Submit the results of the ongoing Storage Stability study. Analysis will be conducted at 1 year from initial manufacture.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-71 enclosure for a further description of final-printed labeling.
