1500 SPRAYS
METERED

**REDUCES AIRBORNE
BACTERIA and many
VIRUS PARTICLES
REFRESHENS AIR**

WARNING:

Keep out of reach of children.
Read precautions on back
panel.

Net Contents: 6 ounces

Micro-Mist **AIR SANITIZER**

Sanitizes the air by reducing the number of airborne bacteria and viruses.

Designed for use in the MICRO MIST Automatic Dispenser, the patented metering valve measures 100 mg. into the air of the room each 15 minutes. Millions of tiny particles remain suspended, sanitizing the air. Each automatic actuation creates a new cycle of sanitization.

DIRECTION: Before placing dispenser in use, hand spray the air to prime the area. For best effect, hang dispenser 6' or more above the floor and in a location where moving air will carry the particles throughout the desired area. One dispenser should treat up to 6,000 cubic feet, dependent on the rate of air change. Should you wish to actuate MICRO MIST Air Sanitizer manually, close the doors and windows, fill the room with mist and leave the room closed for 15 minutes. Thereafter, use of the MICRO MIST Dispenser will continue cycles of sanitation with each automatic dispense.

Active Ingredients:

Triethylene Glycol	8.0%
Dipropylene Glycol	2.0%
Inert Ingredients	90.0%
	<hr/>
	100.0%

REFRESHENS HOME areas such as bathrooms, halls, closets, basements, laundries and other such problem areas.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° may cause bursting. Never throw container into fire or incinerator. Do not spray on face.

PRECAUTION: Do not spray directly on painted or varnished surfaces, rayon fabrics or acrylic plastics. Do not use in nurseries or rooms where infants, ill or aged persons are confined. Do not use in kitchens or areas where food is prepared or served.
