DIRECTIONS

SHOCK TRET FOR ALGAE IN NON STABILIZED POOLS

Use one ounce Shock Tret per 500 Gallons of water. Scatter amount required over the entire water surface area, concentrating on those areas where the algae is seen to be growing. The following day brush walls and bottom to remove dead algae and then vacuum the pool. Chlorine residual should be below 2ppm before swimmers enter pool. Adjust pH to 7.2 to 7.6 range.

Shock Tret for algae in stabilized pools or those using concentrated chlorine, tablets or granular, such as our Super 60 or Super 90.

Use one ounce Shock Tret per 1000 gallons when algae forms. If algae persists check pool for ppm of Stabilizer (cyanuric acid). Proper range is 35 to 90 ppm.

ACCEPTED

AUG 29 1974

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT

Mix with water.
Do not mix with other chemicals.**

Swimming Pool Use

DANGER

DANGER — FATAL OR HARMFUL IF SWALLOWED. MAY PRODUCE SEVERE CHEMICAL BURNS. DO NOT ALLOW CONTACT WITH EYES, SKIN, MUCOUS MEMBRANES, OR CLOTHING. STRONG OXIDIZER, CONTACT WITH OTHER MATERIAL MAY CAUSE FIRE OR EXPLOSION.

Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. While Shock Tret by itself is not a combustible material, it must not be mixed or contaminated with any foreign material such as household products, soap products, paint products, solvents, acids, pool chemicals, vinegar, beverages, oils, pine oil, dirty rags, etc. Contamination or mixing with these types of chemicals and products may result in fire and the fire can be of great intensity. Prevent any burning material such as a lighted cigarette from falling into product. Drench fires with water. Flush spilled product with water. Dispose of spilled product by flushing with large amounts of water. Keep in cool dry place in original container. Always replace cap. Wash empty container thoroughly with water and discard. Do not reuse empty container.

FIRST AID

External - flood skin or eyes with plenty of water for 15 minutes. If irritation to skin persists, get medical attention. For eyes - call a physician immediately. Internally - drink large quantities of water or milk. Follow with milk of magnesia, vegetable oil, or beaten eggs. Call physician immediately.
