

Our recommendations for use of this product are based upon information believed to be reliable. The use of this product is based upon the control of the manufacturer. No guarantee is expressed or implied as to the effects of such or the results to be obtained. It is the user's responsibility to conform with directions or established safe practices. The user must assume all responsibility for injury, property damage, or other adverse results, as such, or in combination with other materials.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DA'NGER

Irritates and causes eye damage. May be fatal if swallowed. Avoid contact with eyes, on skin, or on clothing, irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles on face shield and protective clothing when handling. Wash hands thoroughly.

FIRST AID (PRACTICAL TREATMENT)

If swallowed feed yeast, cooked cereal or bread soaked in water followed by olive oil or cooking oil. In case of personal contact remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eye contact remove contact lenses as possible. Flush nose and wash contaminated clothing before reuse.

CHEMICAL HAZARDS

Strong oxidizing agent. Do not use most oxidizing agents. Contact with water may cause release of chlorine gas. Contact with organic material may cause chemical reaction with generation of toxic or poisonous fumes. Do not mix with other products.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic life. Do not discharge into water. Firmly may be required for disposal. Do not discharge into water. For disposal see the manufacturer's instructions.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

DO NOT VIOLATE FEDERAL LAW TO USE THIS PRODUCT IN A MANNER NOT INTENDED BY THE MANUFACTURER.
Test and adjust pH. Use test kit. Adjust pH to 7.2-7.6. pH can be lowered with Muriatic Acid (36% HCl). Follow the directions on the labels of these products. Add 1/2 ounce (14.3 ml) of stabilizer to every 10,000 gallons of pool water by addition of SLIP TABS. Add 1/2 ounce (14.3 ml) of stabilizer to every 10,000 gallons of water. Do this in the evening. In best results, bathers should not be allowed to enter the pool until the chlorine level has fallen to a level as determined by a reliable chlorine test kit.
Follow the directions on the label of this product.

DAILY DOSAGE

Add 1/2 ounce (14.3 ml) SLIP TABS per 5,000 gallons of water per week. In hot weather, add 1/2 ounce (14.3 ml) of 1.0% (1.0 ppm) Tablets. Weight approximately 1/2 ounce. In hot weather, and with heavy bathing loads or after heavy rains, it may be necessary to add 1 1/2 SLIP TABS. Add additional tablets to maintain a 1.0-1.5 chlorine residual. Supplemental dosing with 1/2 ounce (14.3 ml) per 10,000 gallons of SLIP TABS. Before entering the pool, check the chlorine residual and if above 2.0 ppm allow the pool to stand until the residual is 2.0 ppm or less. Add SLIP TABS through a metered floating dispenser or automatic feeder. **DO NOT ADD DIRECTLY TO POOL WATER.**

NOTE: This product contains stabilizer. Use according to the label. Do not use in pools with a high level of iron or copper. Use only in pools with a pH of 7.2-7.6.
STORAGE AND DISPOSAL: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of fire, use water to extinguish. Do not use in open areas, pools, and floors with large amounts of water. Rinse thoroughly with water to disperse. Rinse thoroughly with water to disperse. Rinse thoroughly with water to disperse. Rinse thoroughly with water to disperse.
NEVER MIX SLIP TABS OR CHLORINATING TABLETS WITH OTHER CHEMICALS OR OTHER TYPES OF CHLORINATORS. DO NOT REUSE CONTAINER.
