

DIRECTION FOR USE

TO KILL FLIES, MOSQUITOES AND GNATS: Close doors and windows, directing the spray up toward the ceiling. The room should be filled with mist and remain closed for 10-15 minutes. Sweep up dead or stupefied insects and destroy them. Repeat treatment as often as necessary.

TO KILL ROACHES, WATER BUGS, AND SILVERFISH: Spray liberally around refrigerators, sinks, all cabinets, around pantry shelves, into all cracks and crevices in moulding and woodwork, pipe openings in walls and floors, or wherever these insects are likely to hide. Wet as many insects as possible. Repeat treatment as often as necessary.

TO KILL ANTS: Use the spray so as to wet as many insects as possible, paying particular attention to nests and runways. Wet as many insects as possible. Repeat treatment as often as necessary.

TO KILL BEDBUGS: Bedbugs should be sprayed thoroughly in all corners, cracks, and crevices. Wet as many insects as possible. Springs and mattresses should be sprayed thoroughly after the bed is dismantled, paying particular attention to cracks, crevices, tufts and seams on mattresses, wallpaper that is loose, loose moulding and any place where the bugs may hide. Repeat treatment as often as necessary.

TO KILL CLOTHES MOTHS AND CARPET BEETLES: Spray thoroughly all articles to be protected, paying particular attention to seams and folds. Coverage should be thorough. Also spray thoroughly the interior surfaces of storage containers, such as trunks and closets, paying particular attention to cracks and crevices where wool lint and organic matter accumulate, and serve as breeding material for these pests. Repeat application monthly unless treated articles are

ZODIAC
