

FOR PROFESSIONAL USE ONLY

CAUTION

READ CAREFULLY BEFORE USE

LIQUIDATOR is a semi-solvent and kills all types of vegetation. Do not apply near any area where desirable trees, shrubs and grass may be growing. Do not apply on lawns, walks, driveways or similar areas. LIQUIDATOR is not a selective weed killer; it is a product to control undesirable vegetation growth along factory buildings, fences, railway tracks and power enclosures. Thoroughly clean spreading equipment after use.

Do not store this material near fertilizers, seeds, insecticides or fungicides. Do not store near feed or foodstuffs. Avoid contamination of irrigation or domestic waters. Do not use on any area where grass and trees are to be grown. Do not apply to areas where roots of desired vegetation may extend.

ACTIVE INGREDIENTS:

Bromacil (5-bromo-3-sec-butyl-6-methyluracil) 1.0%
INERT INGREDIENTS 99.0%
100.0%

WARNING: KEEP OUT OF REACH OF CHILDREN

See left panel for additional Caution.

WARNING:

May cause irritation to skin and eyes. Avoid contact with skin, eyes and clothing. Avoid breathing dust. In case of contact, wash skin with soap and water, or flood eyes with large amounts of water for 15 minutes, and get medical attention. Contaminated clothing should be washed before re-use.

DIRECTIONS:

For general vegetation control along fences, buildings and railroad tracks, apply at the rate of 1# to 3# per 100 sq. ft.

Although this may be applied anytime during active vegetation growth, BEST time to apply is in early spring, when vegetation begins active growth. Sufficient moisture (either by sprinkling or natural rainfall) is necessary to carry material into root zone of the vegetation to be controlled. Once area is under control, lighter applications annually (1/2# to 1# per 100 sq. ft.) will keep area free of vegetation. Do not apply when ground is frozen.
