Directions For Use

Disclaimer

Standard Fruits, Inc. is not responsible for any damage to property or injury to persons or animals that may result from the use of STOP-MOLD "B".

STOP-MOLD "B" is a fungicide used to control mold and mildew on various fruits and vegetables. It is applied as a spray or dust to the foliage and fruit of the plants. It is effective against a wide range of fungi, including those that cause rot and decay. It is also effective against some insects and mites. It is safe for use on most fruits and vegetables, but should not be used on citrus fruits or on plants that are sensitive to copper. It should be used according to the directions on the label.
