P/P Insecticide No. 4

SBP-1382/BIOALLETHRIN AQUEOUS PRESSURIZED SPRAY FOR HOUSE AND GARDEN

ACTIVE INGREDIENTS

*115 Benzyl (3-furyl) methyl 2, 2-dimethyl 3- 12-methylpropenyl cyclopropanecarboxylate	0.200% w/w
Related compounds	0.028%
d-trans Allethrin (a diastereomer of Cisnerin)	0.150%
Related compounds	0.012%
Aromatic petroleum hydrocarbons	0.272%
INERT INGREDIENTS	99.338%
*115 Benzyl (3-furyl) methyl 2, 2-dimethyl 3- 12-methylpropenyl cyclopropanecarboxylate	
*115 Patent No. 3,441,007	

Authorized for use under USDA Meat, Rabbit, Poultry, Shell Egg
Grading and Egg Products Inspection Programs

SHAKE BEFORE USING

CAUTION:

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

Shake well before each use. Remove protective caps. Aim spray opening away
from person. Push button to spray.

CONTROL HOUSEHOLD PESTS

FOR HOUSEFLIES, MOSQUITOES AND GNATS: Close all doors and windows.
Point nozzle upward, direct spray mist to all parts of the room, especially
windows and other light sources which attract these insects. Fill the room
with mist, then leave the treated area. Keep the room closed for at least 15
minutes. Ventilate the room when treatment is completed.

FOR CRAWLING INSECTS: Roaches, earwigs, grain mites, sowbugs, spiders
and centipedes. Spray thoroughly into hiding places such as cracks, crevices,
moist areas, openings around pipes and sinks, under refrigerators, baseboards
and storage areas. Spray directly on insects where possible.
ANTS: Spray trails, nests and points of entry. Spray on ants where possible.
Repeat as necessary.

TO REDUCE ANNOYANCE FROM FLYING INSECTS

Reduce mosquitoes, gnats, midges, houseflies, biting flies and pyralid and
other flying moths by spraying the resting areas. Follow precautions listed
above. Mist container 18 to 24 inches from shrubs, bushes and grassy areas.
Treat these areas with a slow sweeping motion at the rate of from 1 to 3
seconds per foot of space while moving away from the treated areas.
To reduce annoyance from these flying insects treat screen porches and patios
in a similar manner. Spray only when the air is still. Allow spray to dissipate
before occupying the treated area. Repeat as necessary.

TO PROTECT ORNAMENTAL PLANTS

For shrubs, aphids, exposed thrip, adult white flies, leafhoppers, two spotted
chrysanthemum bugs, spotted bugs and Japanese beetles on smaller shrubs, flowers,
cacti, succulents, ferns, spider, dogwood, palm, mimosa, ficus, yucca, abutilum,
magnolia, lilacs, maples, cypripedium, lily, lily, and lily, and mimosa, weeping
willow, clematis, spray directly on insects. Mist container 18 to 24 inches from
the treated plants. Spray in still air, starting at the base of the plant, three seconds
or longer at the rate of one foot of space with one second of rest spray to all
sides, leaving foliage only slightly moist. Avoid heavy wetting. Repeat as
necessary.

For shrubs, aphids, exposed thrip, adult white flies, leafhoppers, two spotted
chrysanthemum bugs, spotted bugs and Japanese beetles on smaller shrubs, flowers,
cacti, succulents, ferns, spider, dogwood, palm, mimosa, ficus, yucca, abutilum,
