

MAY 12 1986

Farris Chemical Company
P.O. Box 22339
Knoxville, TN 37933-0339

Attention: C. Alex Farris

Gentlemen:

Subject: BAF-80
EPA Registration No. 11529-9
Your Amended Application Dated January 21, 1986

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment:
 - a. The words, "Inert Ingredients" should be in the plural.
 - b. Change the word "percent" to "% sign after the declared percentages.
 - c. Delete the word "Composition" from above the ingredient statement.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

BAF-80

COMPOSITION

	Percent By Weight
Active Ingredients	17.5 percent
Disodium cyanodithiolimidocarbonate	7.35 percent
Potassium N-methyldithiocarbamate	10.15 percent
Inert Ingredient	82.5 percent
Weight per gallon	9.31 pounds
Weight of active ingredients per gallon	1.63 pounds

WARNING KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment or disposal of wastes.

Manufactured by:
Farris Chemical Co., Inc.
P.O. Box 22339
Knoxville, Tennessee 37933
EPA REG. NO. 11529-9 EPA EST. NO. 11529-TN-01

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BAF-80 is used to inhibit the growth of algae, bacteria, and fungi in recirculating commercial and industrial cooling water systems. Before treatment with BAF-80 systems must be cleaned to remove algal growth, microbiological slime, and other deposits. Then the system should be treated with an initial slug addition of 3.3 to 6.6 fluid ounces of BAF-80 per 1000 gallons of water in the system. Repeat the initial dosage until control is evident. Subsequent slug additions of 1.1 to 6.6 fluid ounces of BAF-80 per 1000 gallons of water should be made every 1 to 5 days or as needed. The required frequency of treatment depends on the relative amount of bleedoff and the severity of the microbiological problem. Slug additions of BAF-80 should be made to the sump of water cooling towers.

ACCEPTED
with COMMENTS
in EPA Letter Dated:

MAY 12 1986

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

11529-9

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Do not expose to extreme temperatures. Do not stack more than five drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.
PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidance.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and Local authorities.
