

# MICRO-GEN BP300 INSECTICIDE

## ACTIVE INGREDIENTS:

Pyrethrins	100%
*Piperonyl butoxide, technical	3.00%
**N-octyl bicycloheptene dicarboximide	6.00%
Petroleum distillate	10.00%
	81.00%

\*Consists of 4.80% (butylcarbityl) (6-propylpiperonyl) ether and 1.20% related compounds. \*\*MGK 264 Insecticide Synergist

## DIRECTIONS FOR USE

**Space Spray** — Use undiluted to kill accessible stages of insects\* infesting dried fruit products in storage or being processed:

Close room or warehouse and shut off all ventilating systems. Use a spraying device similar to the Micro-Gen Corp. equipment to dispense this product as a fine mist in the air above the trays and shelves. Do not apply to fruit directly. Use a dosage not to exceed 1/2 gallon of this spray per 50,000 cubic feet of room space. Repeat application at this dosage in any given month. Leave the room closed for one hour. Do not remain in treated areas and ventilate area before re-entry.

\*Indian Meal Moth, Dried Fruit Beetle, Confused Flour Beetle, Saw-toothed Grain Beetle and Roaches.

**Space Spray** — Use undiluted to kill the adult and accessible forms of insect pests\* of stored food (stored in multiwall paper bags or in cloth bags) in warehouses, storage rooms and similar locations:

Close room or warehouse and shut off all ventilating systems. Use a spraying device similar to the Micro-Gen equipment to dispense this product. Use a dosage of one fluid ounce of this spray per 1,000 cubic feet of room space. Repeat applications as necessary for insect control. Leave the room closed for one hour. Do not remain in treated areas and ventilate area before re-entry.

\*Rice Weevil, Yellow Meal Worm, Cigarette Beetle, Saw-toothed Grain Beetle, Angoumois Grain Moth, Mediterranean Flour Moth and Indian Meal Moth.

**Space Spray** — Use undiluted to kill flies, mosquitoes and other insects in areas: Dilute concentrate with water and disperse at the rate of one quart of concentrate to two parts of water. Use at a time when the temperature is cool

(75°F or less) and the wind velocity is approximately five MPH. With equipment similar to the Micro-Gen equipment, spray at a dosage rate of fifteen ounces per minute upwind of the area to be controlled. If the equipment is truck mounted, keep the speed to approximately five MPH. Repeat application as required.

**Space and Contact Spray** — Use undiluted to kill roaches, silverfish, waterbugs, earwigs, ants, spiders, and beetles in sheltered situations:

With equipment described above, apply the spray into all cracks and crevices in woodwork, walls, floors, underneath sinks, behind pipes and in all places where these insects shelter. Contact as many insects as possible. Do not allow spray to contact stored food. Use at a dosage rate of approximately one-half fluid ounce per 1,000 cubic feet of room space. Repeat dosage as necessary for control. Leave the room closed for one hour. Do not remain in treated areas and ventilate area before re-entry.

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not apply directly to food. Cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After spraying in meat packing plants, bakeries and other food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled, with portable water.

Do not reuse empty drum. Return to supplier for destruction by perforation, burning and burying in a deep place.

Shake well before each use. Keep container closed and store in cool place. DO NOT POUR OR SPILL.

NEAR FIRE OR FLAME

Net Contents: One Gallon
