 10700 Sentinel Drive
 San Antonio, TX 78217

$\frac{175}{38} \overline{) 397,803}$
 $\frac{176}{38} \overline{) 397,807}$
 $\frac{17}{17} \overline{) 397,184}$

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure.

A stamped copy of the label is enclosed for your records.

(BACK PANEL)

**Micro-Gen ANT REACTOR
ANT CONTROL BAIT**

**For Commercial, Industrial and Residential Use
Including Food Processing Plants, Eating Establishments, Food
Marketing-Storage-Distribution, Hospitals, Nursing Homes, Schools, Office
Buildings, Apartments, Laundries, Buses, Aircraft, Boats, Museums and Zoos**

Ants are attracted to the bait in Micro-Gen Ant Reactor. The bait food is carried back to the nest to kill the queen and destroy the entire colony.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Break Micro-Gen Ant Reactor baits apart from the plastic frame before placement.

Place baits by ant trails or close to areas where ants are present, even on food preparation surfaces or next to food. Do not place baits on food preparation surfaces when food is being handled or on utensils that are used for food preparation. Also place adjacent to walls, electrical lines, potted plants, waste receptacles, sensitive electronic equipment, inside drop ceilings and wall voids or anywhere ant problems occur. To apply baits to vertical surfaces, use the enclosed stickers.

Do not use residual sprays with or near Micro-Gen Ant Reactor.

Ants will begin to feed - population reduction and less activity can be expected in about a week.

For effective control:

Use 3-4 baits for the average size room.

Use 6-8 baits for heavy infestations.

Bait stations are designed to be visually inspected with a flashlight. This allows for monitoring and timely replacement. Replacement is recommended after 3 months or when bait is almost entirely consumed (do not risk loss of control by allowing complete consumption).

Micro-Gen Ant Reactor baits are packaged in a Child Resistant Container.

STORAGE AND DISPOSAL STATEMENTS

STORAGE: Store in a cool, dry area inaccessible to children.

DISPOSAL: Wrap container and put in trash collection.

Additional list of Use Sites for Micro-Gen Ant Reactor.

Greenhouse (Commercial)

HOUSEHOLD- closets, basements, attics, recreation rooms, kitchens, dining rooms, pantry and food storage shelving, bathrooms.
