

SHARE CORP.
BROOKFIELD, WIS. 53005
Chemical Engineering Specialists

Products formulated for professional application, specifically for municipal, industrial and institutional use.

HEAVY DUTY CONTACT WEED CONTROL

USES

1. General weed control in non-crop areas. Controls broadleaf weeds, brush and grasses. Kills most every type of plant life on contact. It kills through the leaves only.
2. General weed control in shrub areas. Chemical will not injure desirable plants as long as spray does not come in contact with leaves of these plants. Chemical becomes inactive on contact with soil. Insects and plant roots do not take up chemical and chemical does not build up and become toxic at a later date.
3. General vegetation control around buildings and other installations, gardens, walkways, patios, storage areas, beneath greenhouse benches, fence lines, golf courses, parkways, driveways, sidewalks and similar areas where any type of vegetation is undesirable.

DIRECTIONS

NON-CROP OR NON-PLANTED AREAS: To kill above ground weed growth around buildings and other installations, gardens, walkways, patios, beneath greenhouse benches, fence lines, golf courses, parkways and driveways for control of undesirable broad leaf and grass type weeds: 2 gallons per 20 gallons water. 1.5 ozs. per gallon water. Apply to full coverage and thorough weed control. Apply preferably to young growth and up to seeding of weeds. Repeat applications necessary to control weeds particularly on grasses and other weeds. Avoid spray contact with foliage of food crops or ornamental plants. Do not water treated areas to 24 to 36 hours after application.

Harmful if swallowed. Avoid contact with skin, eyes and clothing. Chemical may cause skin damage. Use protective gloves and face shield or goggles, when handling concentrate. Avoid breathing spray mist. In case of contact with eyes, flush with plenty of water and wash thoroughly and call medical attention. For every way that you use with water, do not use with drinking water, food, fish or drinking water. During application avoid drift to animals and people. Do not use in areas where children play or where animals are kept. Do not use in areas where people are kept. Do not use in areas where people are kept.

Wash sprayer immediately after calibration with detergent and water.

Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not contaminate

HEAVY DUTY CONTACT WEED CONTROL

USES:

1. General weed control in non-crop areas. Controls broadleaf weeds, brush and grasses. Kills most every type of plant life on contact. . . it kills through the leaves only.
2. General weed control in shrub areas. Chemical will not injure desirable plants as long as spray does not come in contact with leaves of these plants. Chemical becomes inactive on contact with soil, therefore, plant roots do not take up chemical and chemical does not build up and become toxic at a later date.
3. General vegetation control around buildings and other installations, gardens, walkways, patios, storage areas, beneath greenhouse benches, fence lines, golf courses, parkways, driveways, sand traps and similar areas where any type of vegetation is undesirable.

DIRECTIONS:

NON-CROP OR NON-PLANTED AREAS: To kill above ground weed growth around buildings and other installations, gardens, walkways, patios, beneath greenhouse benches, fence lines, golf courses, parkways and driveways for control of undesirable broadleaved and grass type weeds - 2 gallon per 20 gallons water (1/3 ozs. per gallon water). Apply for full coverage and thorough weed contact. Apply preferably to young growth and up to seeding of weeds. Repeat applications necessary to maintain control, particularly on grasses and established weeds. Avoid spray contact with foliage of food crops or ornamental plants. Do not water treated areas to 24 to 36 hours after application.

Harmful if swallowed. Avoid contact with skin, eyes and clothing. Concentrate may cause skin damage. Use floorproof gloves and face shield or goggles, when handling concentrate. Avoid breathing spray mist. In case of contact, immediately remove clothing and wash thoroughly and get medical attention. For eyes, wash thoroughly with water. Do not store with or near feed and feedstuffs or drinking water. During application avoid drift to adjacent food and forage plantings that might be damaged or the crops thereby rendered unfit for sale, use or consumption.

Wash sprayer immediately after application with detergent and water, then rinse with clean water. Do not contaminate water by cleaning of equipment, or disposal of wastes.
