ELECTRO-SPRAY CONCENTRATE

DEODORANT - SURFACE DISINFECTANT SPRAY AND AIR SANITIZER
 REDUCES THE HAZARD OF INFECTION BY AIRBORNE BACTERIA

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)
 dimethyl benzyl ammonium chlorides 5%
 n-Alkyl (68% C₁₂, 32% C₁₄)
 dimethyl ethylbenzyl ammonium chlorides 5%

INERT INGREDIENTS: 90%
 100%

ELECTRO-SPRAY IS A CONCENTRATE AND
 MUST BE DILUTED BEFORE USING.

EPA REG. NO. 11547-40 NET CONTENTS.

DANGER

KEEP OUT OF REACH OF CHILDREN

See first aid and other precautionary statements on back panel.

ELECTRO-SPRAY CONCENTRATE

For use in: Offices, Schools, Factories, Theatres, and other areas where people gather.

DIRECTIONS for Deodorizing the Air: When applying use in an automatic pressure vaporizer or electric sprayer. Before spraying any area remove or cover all food and utensils. Direct the spray into the air and spray thoroughly with a fine mist. Odors such as: garlic, onions, fish, smoke, bathroom odors, closet odors and perspiration and body odors are destroyed, not merely covered up. Odors are eliminated quickly and effectively.

For Surface Disinfecting: Clean objects (floors, walls, woodwork, desks, lockers) then spray, wipe or sponge with a dilution of 3 ounces of ELECTRO-SPRAY-CONCENTRATE to 5 gallons of water.

ELECTRO-SPRAY CONCENTRATE kills Staphylococcus aureus and Salmonella choleraesuis.

For Air Sanitizing: To minimize the danger of cross-contamination from environmental surfaces apply solution of ELECTRO-SPRAY CONCENTRATE as a fog as described below.

Remove all human, animal, and plant life from the room. Open closet doors and drawers. Set up 34" revolving platform in center of room and mount Jet FORMASTER TRI-JET MODEL 6208 or other fogging device delivering equivalent spray at 3 RPM. Fill the sprayer reservoir with 1.5 ounces of ELECTRO-SPRAY CONCENTRATE per 1 gallon of water and set sprayer mechanism to deliver 1 gallon of solution. Spray for 15 minutes for an average 2100 cu. ft. room. For different room sizes vary the spray time proportionally to ensure complete wetting of exposed surfaces. Wait 2 hours before entering room after treatment. Rinse fogging equipment thoroughly with clear water following use.

Use daily with a pressure vaporizer or electric sprayer.

DANGER KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. Rinse empty container thoroughly with water and discard.
