Contains:

Active Ingredient: *o*-Isopropoxyphenyl methylcarbamate* 0.25%

Inert Ingredients: 99.75%

NET WT. 12 OZ.

WARNING

KEEP OUT OF REACH OF CHILDREN
Contents under pressure. See
back panel for additional
cautions.

Code _____

MY
PALTMFLEA AND
TICK SPRAY

Provides rapid kill of fleas and ticks. Prolonged action helps prevent reinfestation on dogs and cats and their bedding.

DIRECTIONS: Read entire label before using. Hold container 6 to 10 inches from the animal and spray lightly over the entire body. Do not spray in eyes. For best coverage, direct spray against the natural lay of the hair to cause fluffing of the coat. Repeat as necessary but not more often than once weekly. For more prolonged flea and tick control, the animal's bedding should also be treated to help prevent reinfestation.

WARNING: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of treatment area. Contact with skin, eyes or clothing should also be avoided. Wash thoroughly with soap and warm water after handling. Avoid contamination of food, utensils and food preparation areas. If poisoning should occur, obtain prompt medical aid.

FLAMMABLE. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.
