FOR VETERINARY USE

Distributed by

USDA Reg. No. 12110

The product reduces discomfort and annoyance caused by blood-sucking flies.

DIRECTIONS

Remove cap from top of can. Holding can in upright position, press down on valve in center of can top with nozzle pointing in desired direction.

To treat HORSES, hold spray about 12 to 18 inches away from animal, and spray thoroughly, but avoid wetting the animal's skin. Repeat as necessary. Do not spray directly over meat, milk or milking utensils. Do not use on meat producing animals. Do not use in dairy barns or poultry houses.
