

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

DATE OF ISSUANCE

115-2187A

JAN 5 1993

TERM OF ISSUANCE

NAME OF PESTICIDE

NOTICE OF PESTICIDE:

(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

165-2187A
1872
Monsanto Corporation
P.O. Box 290
Columbia, MO 65201

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. Submit to the Administrator, within 90 days of the date of registration or reregistration of your product under FIFRA, 7 U.S.C. 135, with the label required, all registrants of similar products, to submit such data.

2. For the information of the Administrator, NO. 11550-1000, you are advised that you are required to submit the following information:

(a) To date, can you determine from the information available to you that pesticide products are no longer classified for general use.

3. The following information is required for this product:

(a) For the Confidential Statement of Formula;

(1) Provide the upper and lower Certified Limits based on the pure active ingredients rather than the technical or concentrate. Note that the lower limit of the active must be the same as the label claim in pure active form.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

1/3/93

(2) Please provide the chemical identity of all components, MSDS and CAS #s of D and C Yellow 10 Lake.

(3) Based on the current CSF your product will not meet the label claim for the active ingredient. Please revise the label or the CSF so the information agrees. (Label claim is 10% and % by weight is 10.8 x 92% [purity of 3125-356] =9.94%).

(4) Complete 13a for each component and also fill in Block No. 17.

b) Your three month storage stability data is acceptable. Please submit your one year storage stability study when it becomes available.

c) Submit a complete description of the manufacturing / formulating process, description of equipment used, mixing time, temperature etc.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the 1-76 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

P.S. Enclosed for your use is an Offer to Pay Statement that should be filled out for the subject product and resubmitted. This is the standard statement to be used for applications for registrations and amendments.

Directions for Use:

General Classification

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

For the Control of Horn Flies and as an Aid to Control Face Flies on Beef and Dairy Cattle (including lactating).

Apply tags when flies appear in spring. Attach one tag to each ear (two per head) with the Allflex® Tagging system:

(illustration)

Figure 1
Disinfect pliers prior to use. Place male button onto pin until it projects through the tip.

(illustration)

Figure 2
Slide tag under the clip of the pliers by depressing the lever.

(illustration)

Figure 3
Position tag in the center portion of the front side of the ear.

(illustration)

Figure 4
Apply the tag between the second and third rib cartilage.

All mature animals in the herd should be tagged. ~~Replace as necessary. Tags remain effective for up to 5 months.~~ Remove tags at the end of the fly season or before slaughter.

Continual exposure of horn flies to a single class of insecticide (e.g. pyrethroids or organophosphates) may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of horn flies developing resistance it is important to rotate the class of insecticide used and/or the method of horn fly control on a seasonal basis.

Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in cool place in original container. ~~Opened pouches~~ containing ear tags should be resealed for storage.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Dispose of empty pouch in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned stay out of smoke.

PRECAUTIONARY STATEMENTS/PRACTICAL TREATMENT

HAZARDS TO HUMANS

C A U T I O N

May cause eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin or clothing. Avoid breathing vapors.

Do not contaminate feed or food. Keep out of reach of children.

Wash thoroughly with soap and warm water after handling.

If swallowed: Call a physician or Poison Control Center.

If inhaled: Remove victim to fresh air. Get medical attention if victim displays signs of poisoning.

If on skin: Remove contaminated clothing and wash affected areas with soap and water.

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

Environmental Hazards: This pesticide is toxic to fish. Do not contaminate water when disposing of used tags. Apply this product only as specified on this label.
