One treatment prevents further flea infestation for up to four weeks
Kills fleas before they lay eggs

Table with 2 columns: Ingredient name and % By Weight. Total: 100.0%

KEEP OUT OF REACH OF CHILDREN WARNING

See below for First Aid and Precautionary Statements.

Precautionary Statements

Hazards to Humans: Causes eye irritation. Harmful if swallowed. Do not get in eyes or on clothing. Avoid contact with skin.

Hazards to Domestic Animals

For external use only. Do not use on kittens under eight weeks of age. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing animals.

First Aid

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

To Physician: Treat the patient symptomatically.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

How to Apply

- Use only on cats. Do not use on other animals.
Remove one applicator tube from the package.

- Hold applicator tube in an upright position. Pull cap off tube.
Turn the cap around and place other end of cap back on tube.
Twist cap to break seal, then remove cap from tube.

- Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the tube on the skin and squeeze the tube twice to expel the entire contents of the tube directly on the skin. Do not get this product in your pet's eyes or mouth.
Discard empty tube as described in Storage and Disposal.

The successive feeding activity of fleas on pets may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of pets with Advantage rapidly kills fleas and may reduce the incidence of this condition.

Advantage kills 98-100% of the fleas on pets within 12 hours. Reinfesting fleas are killed within 2 hours with protection against further flea infestation lasting for up to four (4) weeks.

Larval flea stages in the pet's surroundings are killed following contact with an Advantage treated pet.

Advantage remains efficacious following a shampoo treatment, swimming or after exposure to rain or sunlight.

Monthly treatments are required for optimal control and prevention of fleas.

If re-treatment becomes necessary earlier than four weeks, do not re-treat more than once weekly.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry place.

Disposal: If empty: Do not reuse container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-877-258-2280 for disposal instructions. Never place unused product down any indoor or outdoor drain.
