

### DESCRIPTION

SANI-QUAT is an outstanding algae growth depressant.

SANI-QUAT is efficient, economical and stable in use dilution. Compatible with all chemicals used in pool water. It will not damage tile, concrete, metal or plastics.

SANI-QUAT also keeps pool water free and sparkling, clear of visible algae, slime and green brown colors.

Improves filter operation and cuts down the need for other chemicals.

Imparts tone and a pleasant "feel" to swimming pool water.

### WARNING! KEEP OUT OF REACH OF CHILDREN

Causes severe skin irritation. May cause eye injury. Do not get in eyes or on skin. In case of eye contact, flush copiously with water and seek medical attention. In case of skin contact, flush copiously with plenty of water immediately. Harmful if swallowed. Avoid contamination of food.

### FIRST AID

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

### USE DIRECTIONS

**Initial Application:** To a cleaned pool add one gallon to 50,000 gallons of water, or ratio thereof.

**Maintenance Dose:** Use one quart per 50,000 gallons of water every 5 to 7 days. When weather is hot or bathing load is heavy, use this dosage every 5 days or as necessary.

**Booster Dose:** Immediately after every rain add one quart per 50,000 gallons of water as above.

**Important:** Follow above directions without fail, even when pool is not used. Algae growth must be fought at all times.

**Pool-side surfaces:** After cleaning surface, use one oz. to four gallons of water for sanitizing or one oz. to two gallons of water for disinfecting.

Do not reuse container. Destroy when empty.

This product is toxic to fish. Do not discharge into water int. lakes, streams, or rivers.
