**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing plants, wash all equipment with potable water, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL AND CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DIRECTIONS: USE Indoors ONLY

Flying Insects: Flies, mosquitoes, small flying moths, wasps, gnats.

Calculate cubic feet of space to be treated: Close all doors and windows. Spray in a sweeping motion on all parts of the room. Apply for 2-3 seconds per 1000 cubic feet of space. Do not remain in treated areas. Vacate premises for at least 15 minutes after spraying. Ventilate the area after treatment is completed and before re-entering. Remove pets, birds and cover fish aquariums before spraying. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when facility is not in operation. Sweep up and destroy fallen insects. Repeat treatment as necessary.

Crawling Insects: Roaches, ants, spiders, silverfish.

Calculate square feet of floor to be treated. Open all cabinets, storage areas, closets. Spray directly on insects or in cracks and crevices, where insects hide.

For roaches: For best results, spray directly on roaches and thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces, under sinks, behind stoves and refrigerators, food storage areas, and wherever these pests are suspected of hiding. Also spray around door and window frames. Repeat as necessary.

For spiders and silverfish: For control of these insects, frequent and repeated spraying of baseboards, windows, door frames, bookcases, and storage areas should be made. For adequate control, spray directly on insects.

For crickets: Spray thoroughly and frequently behind stoves, refrigerators, under cabinets, in food storage areas, and especially in closets, basements, and other damp areas. For best results, spray directly on insects.

For ants: Spray ant trails, nests and points of entry.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in tightly closed, original container in a locked area away from children and domestic animals.

DISPOSAL: Replace cap and securely wrap original container in several layers of newspaper and discard in trash or at an approved waste disposal facility.

CAUTION: May cause discoloration to carpets, asphalt tile and some plastics may be affected by this product. Place newspapers on asphalt tile before treatment and cover plastic items, such as plastic furniture stereo covers, eye glasses, etc.

LIMITED WARRANTY: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
