Petroleum distillate	99.733
	<hr/>
	0.833
	99.167
	<hr/>
	100.000

INERT INGREDIENTS:

\*Consists of 0.12% butylacetylacetone, 0.01% menthyl  
acetate and 0.09% related compounds.  
\*\*N-octyl bicycloheptane dicarboximate Synergist

DIRECTIONS FOR USE

Spray with a fine nozzle. To prevent the spray from blowing away, spray in a steady stream.  
Do not spray directly on people or animals.

For best results, apply when insects are most active, i.e., at night.

For relief from PATIO RELIEF FROM MOSQUITOES, GNATS AND SMALL FLYING MOTHS, spray the patio area and allow for 15 minutes to take effect. For relief from ANTS, spray the ant trails and allow for 15 minutes to take effect. Repeat as necessary.

For relief from PATIO RELIEF FROM MOSQUITOES, GNATS AND SMALL FLYING MOTHS, spray the patio area and allow for 15 minutes to take effect. For relief from ANTS, spray the ant trails and allow for 15 minutes to take effect. Repeat as necessary.
