

USE ON ANIMAL AND SLEEPING AREA

DIRECTIONS: Holding can approximately 12 inches from animal spray directly into the hair. For long haired animals it is recommended to ruffle the hair with your hand and spray against the lay of the hair allowing the spray to penetrate to the skin. Ticks that are present should be sprayed individually for best results. To control reinfestation spray animal bedding and sleeping area generously. Animals should be sprayed weekly or as directed by veterinarian, to control reinfestation from brief visits outdoors.

CAUTION: Do not spray in eyes, face or scrotum. Do not use on nursing kittens and puppies under three months.

Active Ingredients:

Pyrethrins	.07%
*Technical Piperonyl Butoxide	.14%
N-Octyl Bicycloheptene Dicarboximide	.23%
**Technical Methoxychlor	.50%
2,3:4,5-Bis(2-Butylene) Tetrahydro-2-furaldehyde	.20%
Petroleum Distillate	6.36%
Inert Ingredients	92.50%
	100.00%

Equivalent to .112% (Butylcarbityl) (6-propylpiperonyl) ether and .028% related compounds.

Equivalent to .44% 2,2-Bis (p-methoxyphenyl)-1,1 1-Triclorethane and .06% other isomers and related compounds.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° Fahrenheit may cause bursting. Never throw container into fire or incinerator.

Harmful if swallowed or inhaled. Keep out of reach of children. Do not breathe spray mist. Avoid contact with skin and wash after handling.
