

Precautionary Statements
Hazards to Humans and Domestic Animals

CAUTION

✓ be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs get prompt medical aid.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Get medical attention immediately.

IF ON SKIN: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: Chlordpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine by injection is antidote of choice.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surface until spray has dried.

Physical Hazards

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool dry area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

General Use Residual Spray: From D-TRANS® Intermediate 2% FA as a spot treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

To Kill Cockroaches, Ants, Crickets, Silverfish, Spiders and Sowbugs: At areas where these pests are found or may be entering, along baseboards, corners of rooms and closets, cracks and crevices in walls, along baseboards and doors and windows, frames, behind and beneath stoves, refrigerators and cabinets and around garages, cars, pipes and other utility installations. Pests drawn out of hiding places should be sprayed directly. For ants, apply to ant trails, ants at sand dikes and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, windows and door frames and localized areas of furniture and floor coverings as where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment is complete. Treat pets with a product registered for animal use, after you identify the source of the flea infestation. Do not spray pets with this product.

Fleas and Mosquitoes: Use as a residual spray as an aid in reducing populations of these insects. Spray walls, window frames, door frames, baseboards, corners and other infesting areas such as under eaves, in other corners and passages where these pests may be found. Do not mix this product with other insecticides unless otherwise directed. Repeat treatment when necessary.

CAI

**LIQUID
PROFESSIONAL STRENGTH
RESIDUAL
ROACH AND ANT KILLER**

Ready to Use Spray - Residually Kills:
Roaches, Ants, Ticks, Fleas, and others listed.
**For Use in Homes and Non-Food Areas of Kennels
Commercial Buildings: Warehouses, Theatres,
