| Johnson Grass | Cocklebur |
| Sandbur | Dandelion |
| Dallis Grass | Goose Grass |
| Bahia Grass | Plantain |
| Barnyard Grass | Ragweed |
| Chickweed | Wood Sorrell |

TERM-X is designed for the selective control of (above) listed and similar type weeds in flower and ornamental beds, around shrubs and trees, sidewalks and similar areas, and in bermuda, zoysia and bluegrass lawns.

DIRECTIONS: Read entire label before using this product. For best results apply TERM-X when the plants are actively growing, the soil is moist (water if dry) and the temperature is 70°F, or above. Insert the handy sprayer that comes with each container. Apply one or two squirts of TERM-X to each Nut Grass weed or other undesirable plant. Thoroughly wet leaves. In 4 - 10 days treated plants begin to turn yellow and die. Since several Nut Grass plants may emerge from the nuts of a single plant, 2 or 3 weekly applications during the growing season may be necessary to clean up a spot infested with Nut Grass. To kill clumps of Dallis Grass, Sandburs and other listed weeds, apply 2 or more squirts of TERM-X to each clump, thoroughly wetting the leaves. When spot treating Nut Grass in St. Augustine, Centipede, Bent, Fescue or Carpet lawns be very careful to adjust sprayer nozzle to give jet stream, then apply TERM-X to each Nut Grass plant only, as those desirable grasses would be injured or killed if contacted. Bermuda, Zoysia and Bluegrass are quite resistant, and while they may be browned if contacted, they will recover in 2 - 3 weeks. Do not allow this product to contact desirable plants.

CAUTION: Harmful if swallowed. Avoid contact with skin. Avoid breathing spray mist. Wash after using. Do not store near feed or food products. Keep children and domestic animals off treated area until this material has been washed into the soil. Do not contaminate water used for domestic consumption or by animals, wild life and aquatic life, or for irrigation purposes. Do not store near fertilizers, fungicides, insecticides or seeds.

ANTIDOTE: If taken internally induce vomiting and call a physician at once.
CONTAINER DISPOSAL: Do not re-use container for any purpose. Perforate, crush and bury in non-crop land away from water supply.
Buyer assumes all risk of use, storage or handling of this material not in strict accordance with directions given herewith.

Lawn Weed Spotter
