ENVICIDE II

Hospital Spray Disinfectant & Air Deodorant

Kills HIV-1 on Pre-Cleaned Environmental Surfaces

An Effective Surface Disinfectant For

- HIV-1 Virus (AIDS Virus)
- Herpes Simplex II • Staphylococci • Salmonella
- Streptococci • Pseudomonas • Influenza A, virus (Hong Kong)

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	
dimethyl benzyl ammonium chlorides.....	0.1%
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides.....	0.1%
Isopropanol.....	53.0%
INERT INGREDIENTS.....	46.8%
TOTAL	100.0%

EPA EST. NO. 11623-GA-1

EPA REG. NO. 11623-24

WARNING:

KEEP OUT OF REACH OF CHILDREN

Flammable! Contents under pressure. Do not use near fire, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 120° F may cause bursting. See back panel for additional cautions and health hazards.

NET WT. 15 OZ. (426 grams)

Manufactured By:
APOLLO INDUSTRIES, INC.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is designed for Homes, Nursing Homes, Hospitals, Institutions, Offices, Schools, Motels and Hotels. When used as directed, this product is formulated to disinfect inanimate hard surfaces (such as walls, desk tops, sink tops, telephones, door knobs, diaper pails, toilet seats, bed pans, and hampers.) In addition, this product deodorizes those areas which generally are hard to keep fresh smelling (such as garbage storage areas, empty garbage bins and cans, restrooms, shower stalls and other areas which are prone to odors caused by microorganisms.) When used as directed, this product demonstrates effective disinfection against Staphylococcus aureus, Salmonella choleraesuis, Pseudomonas aeruginosa and Trichophyton mentagrophytes. This product is fungicidal against Pathogenic fungi (Athletes Foot Fungus), when used as directed on hard surfaces found in the bathroom, shower stall, and locker room, or other clean non-porous surfaces commonly contacted by the bare foot.

AIR DEODORIZER AND FRESHENER: Point spray upwards to center of room and spray for three seconds. **USE IN AUTOMATIC DISPENSER AS AIR DEODORIZER AND FRESHENER ONLY.** Insert can into Dispenser in accordance with instructions on machine. **IMPORTANT:** When used with the Dispenser, one unit should be installed for each 6,000 cubic foot area to be treated. Mount the dispenser 7 - 8 feet from the floor and at a point where wind flow will carry the particles throughout the room. One unit lasts approximately 30 days.

MOLD AND MILDEWSTAT: This product prevents and controls mold and mildew and the odors they cause on hard, non-porous, inanimate surfaces, when used as directed. To control mold and mildew on hard, non-porous surfaces (such as floors, walls, and table tops), spray the surfaces to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

SURFACE DISINFECTION AND DEODORIZATION: (1) First remove soil deposits from surface to be treated. (2) Hold can six inches from surface and spray until completely wet, allowing the surface to remain wet for 10 minutes.

Kills HIV on Pre-cleaned Environmental Surfaces/Objects Previously Soiled with Blood/Body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS PERSONAL PROTECTION:** Use disposable latex gloves, gowns, masks, eye covering and any other protective clothing needed to prevent contact with items soiled with blood or body fluids. **CLEANING PROCEDURE:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant. **DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal. **CONTACT TIME:** Leave surfaces wet for 10 minutes.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS WARNING

Keep Out Of Reach Of Children. Causes eye and skin irritation. Do not get in eyes, skin, or on clothing. Harmful if swallowed. Avoid contamination of food. **STATEMENT OF PRACTICAL TREATMENT** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before re-use. If swallowed, drink egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry area away from heat and open flame. **DISPOSAL:** Do not incinerate or puncture empty container. Replace cap. Wrap container and put in trash collection.
