

# GRANULAR SIMAZINE 2.0-U HERBICIDE

FOR USE IN CALIFORNIA ONLY

<b>ACTIVE INGREDIENT</b>	<b>By Weight</b>
Simazine (2-chloro-4,6-bis[ethylamino]-s-triazine) .....	2.0%
<b>INERT INGREDIENTS</b> .....	<b>98.0%</b>
<b>TOTAL</b>	<b>100.0%</b>

**FERTILIZER GUARANTEED ANALYSIS**

NITRATE NITROGEN .....	0.0%
AMMONIC NITROGEN .....	0.0%
ORGANIC NITROGEN** .....	44.0%
TOTAL NITROGEN .....	44.0%
WATER SOLUBLE PHOSPHORIC ACID AS P <sub>2</sub> O <sub>5</sub> .....	0.0%
CITRATE SOLUBLE PHOSPHORIC ACID AS P <sub>2</sub> O <sub>5</sub> .....	0.0%
WATER SOLUBLE POTASH AS K <sub>2</sub> O .....	0.0%

\*\*Derived from Urea

EPA Reg. No. 11656-47

NET WEIGHT: 50 LBS.

## CAUTION

**KEEP OUT OF REACH OF CHILDREN**

This product may irritate eyes, nose, throat or skin. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Destroy empty container by burial. Refer to Federal, State or Local Recommendations. Avoid storage near food and foodstuffs.

## DIRECTIONS FOR USE

**USE PRECAUTIONS:** Injury or loss of desirable plants may occur as a result of failure to observe the following use precautions. Do not apply or empty or flush equipment on or near desirable vegetation or onto areas where their roots may extend or on locations where this product may be washed or moved into contact with their roots. Do not apply to lawns, walks, driveways, tennis courts or other similar areas. Do not contaminate domestic or irrigation water or lakes, streams and ponds. Do not apply where run-off is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Prevent contact with pesticides or seeds. Do not contaminate other fertilizers. Clean all application equipment thoroughly by flushing with water. Use only as directed on this label.

**CAUTION:** Control irrigations after application so that the uniform distribution of the product is not disturbed and also to prevent damage because of run off of the product to adjacent property and crops.

## APPLICATION DIRECTIONS

Western Farm Service GRANULAR SIMAZINE 2.0-U Herbicide is prepared for use as a dry, granular herbicide for the selective control of weedy plants as described below. In addition to this use, however, this product will provide the crop with the fertilizer value described in the guaranteed analysis. The effect of this product may be slow to appear and will not become apparent until the active ingredient is washed into the root zone of the weeds by rainfall or irrigation. The degree and duration of control will tend to vary with the amount applied, soil types, rainfall or irrigation and other environmental conditions.

**SELECTIVE WEED CONTROL IN AVOCADOS, GRAPEFRUIT, LEMONS AND ORANGES - CALIFORNIA (except Palo Verde, Imperial and Coachella Valleys):** To control annual weed seedlings such as Foxtail, Lambsquarter, Pigweed, and Wild Mustard, use 200 lbs. per acre as a broadcast treatment shortly after grove has been laid up in final form (non-tillage program) in late fall or early winter prior to or immediately following weed seed germination but prior to weed emergence. The dosage is given in pounds per treated acre. Broadcast uniformly to floor of orchard. May be applied by power driven ground or hand operated spreaders.

Avoid picking fruit for 10 days.

Do not apply in home plantings of citrus or in areas where the roots of other valuable plants or trees may extend.

**IMPORTANT:** Avoid direct contact with foliage or fruit. Do not apply to trees that have been subjected to freezing within 1 year. Do not use on course soils (sand or gravelly) nor where organic matter is less than 1% as injury may result. Use only after orchard has been established at least 1 year.

Do not use in nurseries. Make only 1 application per year.
