

08 APR 1986

Walling Chemical Company  
P.O. Box 408  
Sioux Falls, SD 57101

Gentlemen:

Subject: A-230  
EPA Registration No. 11659-1  
Your Submission Dated March 10, 1986

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
  - Add the phrase "EPA Registration No. 11659-1" to your label before you release product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Jeff Keapler  
Acting Product Manager (32)  
Disinfectants Branch  
Registration Division (TS-767C)

its labeling.

A-230 is used  
and fungi in recirculating commercial and industrial  
to its use, systems must be cleaned to remove  
slime, and other deposits. An initial slug addition  
fluid ounces of A-230  
of water to provide a concentration of 16  
A-230, base

in the system, is recommended. Repeat initial dose  
Subsequent slug additions of 0.47  
A-230 per 1000 g

40 parts per million of A-230  
employed every 2 to 5 days, or as needed. The  
upon the relative amount of bleedoff and the severe  
blem. Slug additions should be made in the sump  
A-230 is used

air-washing systems that maintain effective mist  
to its use, systems should be cleaned to remove  
deposits. An initial slug dose of 7.1  
A-230 per 1

mended. Repeat initial dosage until control is es  
tions of 4.8 to 11.9 fluid ounces of  
per 1000 gallons of water should be employed each  
frequency of addition depends upon the relative s  
of the bacterial problem. Slug additions may be m  
collection trays of the airwash system.
