DIRECTIONS FOR USE — BIG T Cattle Oil is a ready-to-use formulation for the control of HORN FLIES on beef cattle. A reduction in FACE FLY population will take place if beef cattle rub their heads and faces on the back rubber device. This treatment also aids in controlling LICE on beef cattle and swine. BIG T Cattle Oil should be used in Ridgid Rub or similar tank type automatic back rubber devices that are constructed low enough to allow cattle to rub their heads. Discontinue use 28 days before slaughter. Do not make accessible to dairy animals. **DO NOT USE EMPTY CONTAINER — DESTROY BY CRUSHING & BURYING** in a safe place, or deliver to authorized disposal group, approved by the local Environmental Protection Agency for disposal in accordance with established environmental and pollution standards.
