

# COTNION-METHYL

## AZINPHOS METHYL TECHNICAL 85D

For The Manufacture Of Insecticide Only

### ACTIVE INGREDIENT:

Azinphos Methyl: 0,0-DimethylS-(4-oxo-1,2,3-benzotriazin-3(4H)-yl)  
methyl phosphorodithioate.....85%

INERT INGREDIENTS.....15%

TOTAL .....100%

### KEEP OUT OF REACH OF CHILDREN

## DANGER

## POISON

### STATEMENT OF PRACTICAL TREATMENT

**IF SWALLOWED** - Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF INHALED** - Remove from contaminated area and have patient lie down and keep quiet. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

**IF ON SKIN** - Remove contaminated clothing and wash skin immediately with soap and warm water. Get medical attention.

**IF IN EYES** - Wash with flowing water for at least 15 minutes.

EPA Establishment No. 11678-IS-01  
Net Weight:

AUG 23 1999

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 11678-04

MAKHTESHIM-AGAN

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

## DANGER

Poisonous if swallowed, inhaled or absorbed through skin. Causes skin burns and irreversible eye damage. Do not get in eyes, on skin or on clothing. Wear natural rubber gloves, protective clothing, goggles or face shield. In case of contact, wash immediately with soap and water. Wear a respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part II. Keep all unprotected persons and beneficial animals out of operating area or vicinity where there may be danger of drift. Wash hands, arms and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before re-use.

**NOTE TO PHYSICIAN:** Azinphos Methyl is a cholinesterase inhibitor. Patient should be kept under observation for 48 hours. Atropine is antidotal. Give 4 mg intramuscularly or intravenously. Repeat every 15 minutes until patient is fully atropinized. If cyanotic give artificial respiration. 2-PAM is also antidotal and may be administered in conjunction with atropine.

#### ENVIRONMENTAL HAZARDS

This pesticide is toxic to wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters except in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

#### PHYSICAL AND CHEMICAL HAZARDS

Do not store in front of space heater. Do not store in draft from an open door. Keep away from open flame. Do not heat. Store below 120°F. Do not store adjacent to toys, cosmetics, dishes, furniture or clothing. Do not store next to herbicides.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For the manufacturer of insecticides only. This product may not be reformulated for use on sugarcane, ornamentals, Christmas trees, shade trees, or forest trees. This product may only be reformulated into end-use product bearing labels that have been amended or approved by EPA after August 2, 1999.

#### STORAGE AND DISPOSAL

**STORAGE:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

**DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

#### WARRANTY STATEMENT

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE express or implied extends to the use of this product contrary to label instruction, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
