JIRDON LAWN FERTILIZER CONTAINING DURSBAN INSECTICIDE 12-12-12

Covers 5,000 Square Feet

GENERAL INFORMATION

Jordon Lawn Fertilizer Containing Dursban will control the following insects on home lawns and other ornamental turf areas: Sod Webworms (Lawn Moths), Fleas, Billbugs, Brown Dog Ticks, Crickets, Cutworms, Earwigs, Sowbugs (Pillbugs), Certain White Grubs* infesting home lawns and other ornamental turf areas.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Apply Jordon Lawn Fertilizer Containing Dursban uniformly to home lawns and other ornamental and recreational turf grass areas using a hand or power operated gravity or rotary-type spreader designed for application of granular fertilizer. Treat turf areas when insects first appear, using Jordon Lawn Fertilizer Containing Dursban, at the rate of eight (8) pounds per 1,000 square feet. To help obtain uniform distribution, apply one-half the required amount of product in one direction; then apply the balance at a right angle. Immediately after application, sprinkle the turf with thirty (30) gallons of water per 1,000 square feet, so as to wash the granules into the zone of insect infestation.

STORAGE AND DISPOSAL

STORAGE: Keep away from food, feedstuff and domestic water supplies. Keep container closed.
DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
