C.M.S. 40

For professional use only

KILLS COCKROACHES, RESISTANT FLIES
AND MOSQUITOES

ACTIVE INGREDIENTS: 100%
45% Aromatic Petroleum Derivative
Solvent

37% Chlordane Technical*

15% Niclathion**

*Equivalent to 22.2% octachloro-4,7-methano-1,3,6,8-tetrahydro-1,5-diene and 14.8% of the above.

**Octachloro-4,7-methano-1,3,6,8-tetrahydro-1,5-diene
mercapto-acetate.

CAUTION: KEEP OUT OF REACH OF CHILDREN

EPA Reg. No. 11694-1

Use C.M.S. 40 to treat areas such as city dumps, sewage disposal areas, garbage heaps, and livestock pens. This will not harm trees or plants. Before using, warm to room temperature and stir thoroughly.

DIRECTIONS:

MUNICIPAL CONTROL OF MOSQUITOES AND HOUSEFLIES: Mix 1 gallon C.M.S. 40 with 40 gallons of solvent such as diesel or kerosene. With this solution treat insect breeding areas such as city dumps, sewage disposal areas, garbage heaps, and livestock pens. Also treat areas around yards, houses, and walls around buildings that house domestic animals. Apply 1 diluted gallon for each 1000 square feet of area to be treated on painted surfaces. Use 2 gallons of diluted solution for each 10' x 10' of unpainted surfaces.

On Cockroaches: Mix 1 gallon C.M.S. 40 to 40 gallons of solvent such as kerosene or diesel. Treat breeding areas with particular attention to city dumps, livestock pens and garbage heaps. Wet all surfaces thoroughly.

Places where C.M.S. 40 can be used:

Municipal Spraying

Hog Pens

Barns

Calf Pens

Horse Barns

Garbage Heaps

Corrals

City Dumps

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

Net Contents: 55 gallons

C.M.S. 40 should be mixed as follows:

For Finished Spray	Amount Finished Spray Desired	Amount C.M.S. 40 Liquid to Use
160 gal.	4 gal.	4 gal.
80 gal.	2 gal.	2 gal.

For Cockroaches: Mix 1 gallon C.M.S. 40 to 13 gallons of solvent such as kerosene or diesel. Apply as coarse wet spray to sewer manholes, around building foundations, pipes, around garbage storage areas, racing tracks, dumps. Reapply as necessary.

For feeding and Mist Machines: Use 1 gallon C.M.S. 40 to 60 gallons of solvent. Effective in thermal and mist generators. Insects to be controlled are mosquitoes and houseflies. Use 1 gallon C.M.S. 40 to 60 gallons of solvent.

For use on resistant flies: Mix 1 gallon C.M.S. 40 to 13 gallons of solvent such as kerosene or diesel. Apply as coarse wet spray to sewer manholes, around building foundations, pipes, around garbage storage areas, racing tracks, dumps. Reapply as necessary.

For use on resistant flies: Mix 1 gallon C.M.S. 40 to 13 gallons of solvent such as kerosene or diesel. Apply as coarse wet spray to sewer manholes, around building foundations, pipes, around garbage storage areas, racing tracks, dumps. Reapply as necessary. Do not apply to areas occupied by humans or animals. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not use around poultry houses. Do not apply or allow to drift to areas occupied by humans or animals.

INFLAMMABLE MIXTURE: Keep away from heat and open flame.

Fish and Wildlife Caution: C.M.S. 40 is toxic to wildlife and fish. Keep out of any body of water. Apply this product only as specified on label.
