Dear Mr. Jones:

Subject: B-145 Weed Killer  
EPA Registration No. 11694-43  
B-061 Weed Killer  
EPA Registration No. 11694-18  
BKL Spray  
EPA Registration No. 11694-10  
Re: Label Amendment  
Your Submission Dated September 22, 1991

Your labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable, provided that you make the label changes under the "Environmental Hazard" Section of the label. Replace the statement "Do not apply directly to water or wetland" with the statement, "Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark." This statement should be used on labeling of all products being registered for the first time, on amendments to labeling of existing products and to products being reregistered. Please submit five (5) copies of your final printed labels incorporating this amendment. A stamped copy is enclosed for your records.

For all outdoor, non-aquatic use pest.

Sincerely,

Jeanne J. Miller  
Product Manager (23)  
Fungicide-Herbicide Branch  
Registration Division (4750A.1)

## Non-Selective VEGETATION & SPOT WEED KILLER

**ACTIVE INGREDIENTS:**

**2, 4-Dichlorophenoxyacetic Acid, 2-Ethylhexyl ester.....	0.55%
Bromacil (5-Bromo-3-Sec-butyl-6-Methyluracil).....	0.49%
<b>**INERT INGREDIENTS:</b> .....	<b>98.96%</b>
**2, 4-Dichlorophenoxyacetic Acid Equivalent.....	0.35%

\*\*Contains petroleum distillates

Net Wt. 17 oz. (1 lb. 1 oz.) 482 grams

**KEEP OUT OF REACH OF CHILDREN.  
WARNING**

**HIGHLY FLAMMABLE**

### STATEMENT OF PRACTICAL TREATMENT

**IF IN EYES:** Flush with plenty of water, lifting eyelids and rolling eyes to ensure complete removal. See a physician immediately.

**IF ON SKIN:** Flush with plenty of water while removing contaminated clothing and shoes. Wash thoroughly with soap and water. If irritation arises and persists, call a physician. Launder contaminated clothing before reuse. **IF SWALLOWED:** Contains petroleum distillates. Do not induce vomiting. Get immediate emergency medical attention. **IF INHALED:** Remove to fresh air. If unconscious, qualified personnel should administer artificial respiration.

**Contents under pressure. See side panel for additional precautionary statements.**

### DIRECTIONS FOR USE: GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with labeling.

Shake can well before using. When applying this product use chemical resistant gloves. Wash non-disposable gloves thoroughly with soap and water before removing. Turn can upside down, then point valve opening toward areas to be treated. Press valve to spray. This product is a liquid, non-selective, persistent, general herbicide designed for use where control of all vegetation is desired. It is recommended for use on non-cropland areas, such as fence rows, parking lots, around buildings, loading ramps, storage yards, farms, industrial plant sites and other similar areas where grasses and weeds interfere with drainage, create a fire hazard or cause unsightly appearance. Apply in late spring when most predominant weeds have emerged. Apply in a spray pattern that wets the ground completely. Use enough product to cover the surface area of the weed to be controlled. Frequency of applications depends on the soil type, rainfall and other natural conditions. Repeat as necessary.

Do not apply to areas underlaid by roots of desirable trees and shrubs. Do not use on sidewalks, driveways, tennis courts, or similar areas. Do not use in or around the home. Do not apply when ground is frozen. Vapors from this product may injure susceptible plants in immediate vicinity.

**IMPORTANT:** Do not permit this product to contact vegetables, flowers, fruits, ornamentals, cotton, beans, peas, grapes or other desirable plants. Keep spray from contact with susceptible plants. Do not store near fertilizers, seeds, insecticides, or fungicides. Do not contaminate waters used for irrigation or domestic purposes.

### PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

### WARNING

May be fatal if swallowed, inhaled or absorbed through the skin. Do not breathe vapors or spray mist. Do not get in eyes, on skin, or clothing. Wash thoroughly after handling to avoid eye and skin irritation.

### ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and non-target plants. Do not apply directly to water or wetlands (bogs, marshes, and potholes). Do not contaminate water when disposing. Keep away from lakes, ponds, or streams.

### PHYSICAL OR CHEMICAL HAZARDS

Flammable, contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 °F may cause bursting.

### STORAGE AND DISPOSAL

**Storage:** Contents under pressure. Do not store near fire, sparks or flame. Do not store in or incinerate container. Exposure to temperatures above 130 °F may cause bursting. Do not store near fertilizers, seeds, insecticides or fungicides. Store in a cool, dry location. Do not prolong direct sunlight exposure. Replace cap when not in use.

**Pesticide Disposal:** Pesticide wastes are toxic. Improper disposal of excess product, spray, mixture, or rinsate is a violation of Federal Law and may contaminate ground water. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency, or nearest EPA Regional Office for guidance. Do not contaminate water, food, or feed by storage or disposal.

**Container Disposal:** Replace cap or discard containers in trash (if allowed by local statutes). Do not incinerate or puncture.

**General:** Consult federal, state or local disposal authorities for approved disposal procedures.
